Learning about CHDX

This document describes how to use the Car Hire Data Exchange (CHDX) through the following major sections:

- [Getting Started](#) on page 3 describes how to access and log into the system.
- [Uploading CHDX Files](#) on page 6 describes the process for uploading CHDX files and explains how to view e-mail notifications related to the upload.
- [Viewing the CHDX System Profile](#) on page 9 describes how to view your current system profile, which contains information about your preferred file formats, etc.
- [Viewing the Inbound History](#) on page 10 describes how to view historical data and the corresponding Inbound Summary Report.
- [Viewing the Outbound History](#) on page 13 describes how to view the Outbound Summary Report and how to resend an outbound file via FTP if needed.
- [Accessing Help](#) on page 17 provides links for online access to this user guide and additional reference information.

An index is provided on page 19.

Overview

CHDX processes information on car hire payables and receivables.

- Participants submit files via FTP or web upload. Files submitted by participants are referred to as *Inbound* files. Railinc merges the submissions and then forwards complete consolidated files to equipment owners. The consolidated files that are sent to equipment owners are referred to as *Outbound* files.
- CHDX is integrated with the Railroad Clearinghouse (RCH), which allows for automatic net settlement each month. Refer to [Railroad Clearinghouse](#) on Railinc.com for more information.
- CHDX is the oldest and largest of all the data exchanges, with over 420 railroads submitting their car hire payable data.

System Requirements

For information about the system requirements of Railinc web applications and for information about downloading compatible web browsers and file viewers, refer to the [Railinc UI Dictionary](#).

Accessing the Railinc Customer Success Center

The Railinc Customer Success Center provides reliable and timely high-level support for Railinc customers. Representatives are available to answer calls and respond to emails from 7:00 a.m. to 7:00 p.m. Eastern time, Monday through Friday, and provide on-call support via pager for all other hours to ensure support 24 hours a day, 7 days a week. Contact us toll-free by phone at 877-RAILINC (1-877-724-5462) or send an email directly to csc@railinc.com.

Getting Started

The CHDX application uses Railinc Single Sign-On (SSO) to manage permissions. To access SSO, view the Railinc portal at <https://public.railinc.com/> The SSO log in is located at the upper right of the page.

Registering to Use Railinc SSO

Each CHDX user must register to use Railinc Single Sign-On. If you are not already registered, refer to the [Single Sign-On and Launch Pad User Guide](#) for more information. Once you have completed SSO registration, request access to CHDX within SSO.

Requesting Access to CHDX

After you receive authorization to use Railinc SSO, you must request general access to CHDX by following instructions in the [Single Sign-On and Launch Pad User Guide](#).

Your level of access and authorization for CHDX is determined when you request access through Railinc Single Sign-On. [Exhibit 1](#) shows the requestable CHDX roles as seen in SSO.

Exhibit 1. User Roles and Tasks

Task	Description
CHDX User	User who may submit, update, and view car hire data in the CHDX-application.

Your assigned user role determines what functions you can perform. User roles are assigned by Railinc through the Single Sign-On interface ([Exhibit 2](#)).

Exhibit 2. CHDX Request Permission (requestable by user)

The screenshot shows a web interface for selecting roles. At the top, there are three steps: 1. Select Roles, 2. Confirm, and 3. Done. Below the steps, there is a list of roles, each with a checkbox and a description:

- CHDX User (MARK required)
User that may submit, update, and view car hire data on the CHDX application
- FLDX User (MARK required)
User that may submit, update, and view freight loss data on the FLDX application
- SSDX Threshold Web User (MARK required)
User that may setup threshold and exceptions on the SSDX application
- SSDX User (MARK required)
User that may submit, update, and view switching settlement data on the SSDX application

At the bottom, there is a "Comments..." field and a "Return" button. The page number "0/255" is visible in the bottom right corner.

Once you receive e-mail notification of access, you can log on and begin using CHDX.

Logging In

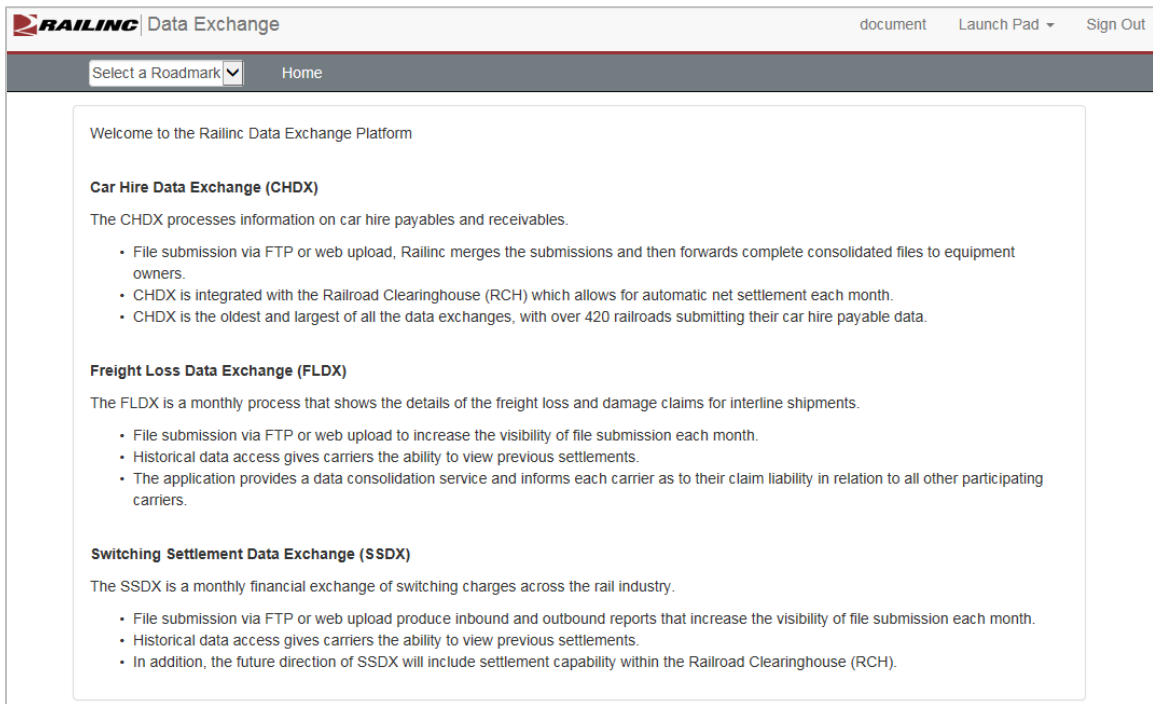

To log into CHDX:

1. Open your internet browser and enter <https://public.railinc.com> to open the Railinc website.
2. Select the **Customer Login** link in the upper right of the page. The Account Access page is displayed.
3. Enter your **User ID** and **Password**. Select **Sign In**. The Railinc Launch Pad is displayed.

Note: For more information about the Launch Pad, refer to the [Single Sign-On and Launch Pad User Guide](#).

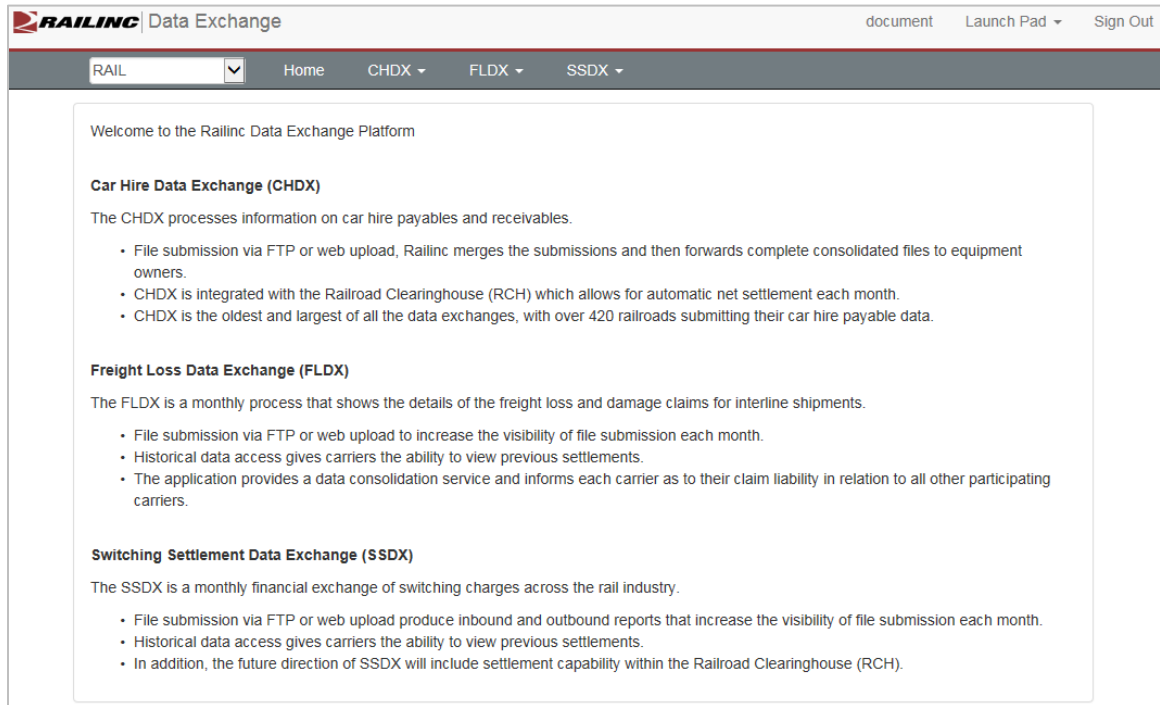

4. Select **Railinc Data Exchange**. The Welcome to the Railinc Data Exchange Platform page is displayed ([Exhibit 3](#)).

Exhibit 3. Railinc Data Exchange Platform

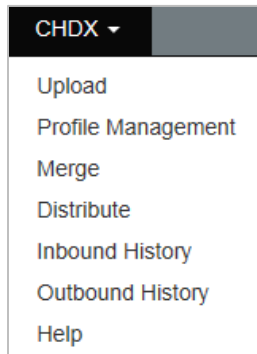

5. From the **Select a Roadmark** drop-down, select the account to manage. The Roadmark field indicates the currently managed company and the CHDX application option is displayed ([Exhibit 4](#)).

Exhibit 4. Railinc Data Exchange Platform with CHDX Option

6. Select the **CHDX** drop down to view the functions of the CHDX application ([Exhibit 5](#)).

Exhibit 5. CHDX Application Options

Logging Out

Select the **Sign Out** link to end a CHDX session. You are returned to the Railinc portal.

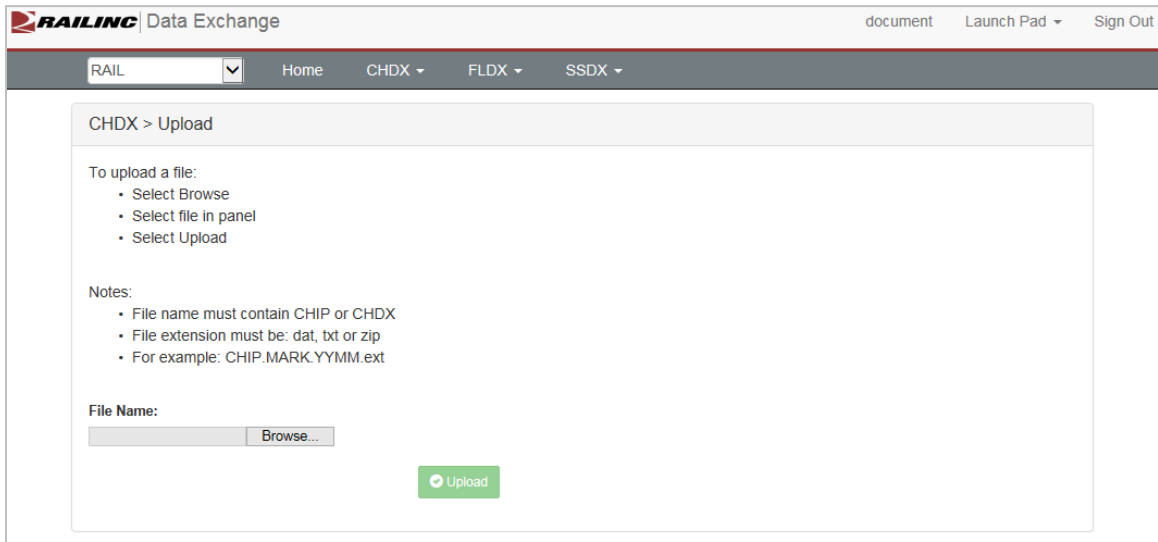

Uploading CHDX Files

This section describes how to upload CHDX files.

Use the following procedure to upload a CHDX file:

1. Log into CHDX as described in [Logging In](#) on page 4. The CHDX options are displayed ([Exhibit 5](#)).
2. Select **Upload**. The Upload page is displayed ([Exhibit 6](#)).

Exhibit 6. CHDX Upload Page

3. Select **Browse**. Select the file to be uploaded from the displayed panel.

Note: The filename for the file to be uploaded must begin with CHIP or CHDX, and the file extension must be .dat, .txt, or .zip.

4. Once the file to be uploaded appears in the File Name field, select the **Upload** button.
5. If successful, a message appears confirming the success of the upload ([Exhibit 7](#)).

Exhibit 7. Upload Confirmation Message

Note: If you attempt to upload a file that has already been uploaded with the same name, the system asks if you are sure about replacing the file before it is uploaded. Select **Yes** to continue with the replacement or select **Cancel** to cancel the upload.

Viewing Notification Emails

At the end of processing an uploaded file, Railinc sends an e-mail notification ([Exhibit 8](#)) to inform you (the submitter) with regards to whether your inbound file was accepted or rejected. The email includes the Inbound Summary Report ([Exhibit 13](#)). A separate email may also be sent during this process that notifies the you if the inbound file contains recipients who are not set up to receive CHDX data ([Exhibit 9](#)).

Exhibit 8. Inbound Summary Email Notification

Subject: DEV: CHDX Inbound Summary Report: CHIP.AAR.1208.AAR_to_RAIL_demo.bt - ACCEPTED

CHDX User,

We have completed initial pre-processing of your Car Hire data file to be included in the monthly Railinc Data Exchange processing. Your file has been accepted for processing. Please see the attached document for details. To replace the existing file for this accounting period, submit another file with the same file name as the previously submitted file. All processed records will be included in the outbound distribution upon completion of the current Car Hire Data Exchange.

Thank you,
Car Hire Data Exchange Manager
Railinc

Please contact dx@railinc.com for any questions regarding the Car Hire process.

This email and any files transmitted with it are confidential and intended solely for the use of the individual or entity to whom they are addressed. If you have received this email in error please notify the system manager. This message contains confidential information and is intended only for the individual named. If you are not the named addressee you should not disseminate, distribute or copy this e-mail.

Exhibit 9. CHDX Inbound File Contains Data Without a Recipient Email Notification

Subject: DEV: CHDX Inbound File Contains Data Without a Recipient: CHIP.HELD.1303.Ctc02heldData.dat

The following recipients listed in your file are not setup to receive CHDX data.

Recipient:	Number of Instances:
HELD	2

This email and any files transmitted with it are confidential and intended solely for the use of the individual or entity to whom they are addressed. If you have received this email in error please notify the system manager. This message contains confidential information and is intended only for the individual named. If you are not the named addressee you should not disseminate, distribute or copy this e-mail.

Once the processing and extraction of all files for the current submission period is complete, another email is sent ([Exhibit 10](#)). It includes the Outbound Summary Report ([Exhibit 16](#)).

Exhibit 10. Outbound Summary Email Notification

Subject: DEV: CHDX Outbound Summary Report: CHOP.RAIL.1208.zip

CHDX User,

Processing and extraction of all files for the current submission period is complete. You will be sent the outbound file content via FTP at mailbox qtest21. Attached is a summary report including outbound data of roads for which you are receiving.

Thank you,
Car Hire Data Exchange Manager
Railinc

Please contact dx@railinc.com for any questions regarding the Car Hire process.

This email and any files transmitted with it are confidential and intended solely for the use of the individual or entity to whom they are addressed. If you have received this email in error please notify the system manager. This message contains confidential information and is intended only for the individual named. If you are not the named addressee you should not disseminate, distribute or copy this e-mail.

Viewing the CHDX System Profile

CHDX enables you to see a read-only view of your current system profile. If changes are needed, contact Railinc CHDX administration. Railinc staff can modify a road's profile settings, so that CHDX files can be read properly by the CHDX system and the proper parties are given access to the inbound/outbound functionality.

To view a CHDX profile:

1. Log into CHDX as described in [Logging In](#) on page 4. The CHDX options are displayed ([Exhibit 5](#)).
2. Select **Profile Management**. The Profile Management page is displayed ([Exhibit 11](#)).

Exhibit 11. Profile Management

The screenshot shows the RAILINC Data Exchange interface. At the top, there is a navigation bar with 'RAILINC Data Exchange' on the left and 'document Launch Pad Sign Out' on the right. Below this is a secondary navigation bar with 'RAIL' selected in a dropdown menu, followed by 'Home', 'CHDX', 'FLDX', and 'SSDX'. The main content area is titled 'CHDX > Profile Management' and features a 'Read Only View' indicator in red. The profile settings are organized into two columns. The left column includes: Road Mark (RAIL), Submitting Medium Type (FTP), Submitting Marks, Receiving Medium Type (WEB), Receiving Marks, and Notification Email (meghan.finnie@railinc.com). The right column includes: Parent Mark (RAIL), Submitting Medium (qtest21), Inbound File Format (EDI 414), Receiving Medium, Outbound File Format (EDI 414), Outbound File Type (DAT), Outbound File EOL, and Outbound File Name. At the bottom, there is a table with two tabs: 'Submit For' and 'Receive For'. The 'Receive For' tab is active, showing a table with two rows: one for 'AAR' (ASSOCIATION OF AMERICAN RAILROADS) and one for 'RAIL' (RAILINC CORPORATION).

Road Mark	Name
AAR	ASSOCIATION OF AMERICAN RAILROADS
RAIL	RAILINC CORPORATION

Viewing the Inbound History

You can view CHDX inbound history files in order to view historical data and the corresponding inbound summary report. You can view up to 6 months of historical data.

1. Log into CHDX as described in [Logging In](#) on page 4. The CHDX options are displayed ([Exhibit 5](#)).
2. Select **Inbound History**. The Inbound History page is displayed ([Exhibit 12](#)).

Exhibit 12. Inbound History

Viewing the Outbound History

This section describes how to view CHDX outbound history files.

Note: If you need to resend the Outbound File via FTP, see [Resending the Outbound File via FTP](#) on page 15.

Use the following procedure to view and download outbound history records:

1. Log into CHDX as described in [Logging In](#) on page 4. The CHDX options are displayed ([Exhibit 5](#)).
2. Select **Outbound History**. The Outbound History page is displayed ([Exhibit 15](#)).

- b. Select **Download Outbound File** to download the select row. Select to either open or save the file.

Resending the Outbound File via FTP

If you have the appropriate permissions, you can send any historical outbound CHDX file to your FTP mailbox. There is no fee for resending the file.

The requirements for this capability are:

Note: Contact the Railinc Customer Success Center if you need help with these requirements.

- CHDX User permission for the Mark in question.
- Your account must be associated with a valid FTP Mailbox.
- The Account Profile must be set to a Receiving Medium Type of “FTP”.

Receiving Medium Type:	FTP
-------------------------------	-----

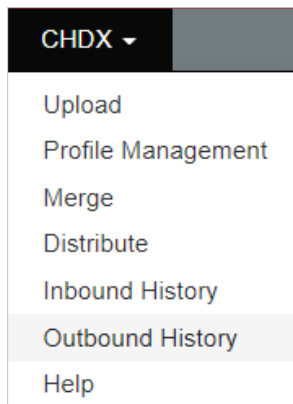

- The Receiving Medium must contain a valid FTP Address.

Receiving Medium:	qrail21
--------------------------	---------

Once the above requirements are met, use the following procedure to resend the outbound file via FTP:

1. Select **CHDX** from the menu bar and then select **Outbound History** ([Exhibit 17](#)).

Exhibit 17. CHDX Menu

2. On the Outbound History page, locate the file you want to resend ([Exhibit 18](#)).

Exhibit 18. Outbound History Page (showing a file to be resent)

Displaying 1 - 40 of 40 files			
Actions	Receiving Roadmark	Outbound File Name	Total
		chop.rail	
Action ▾	RAIL	CHOP.RAIL.1711.zip	

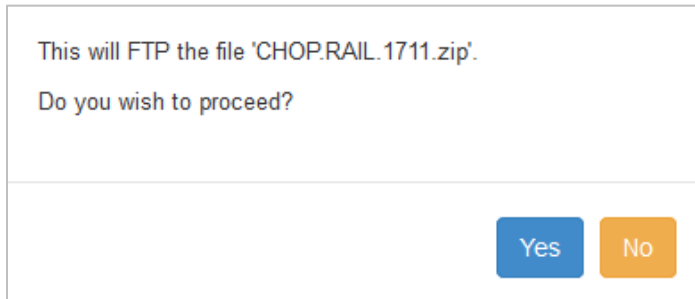

3. Select the **Action** drop down menu and then select **FTP Outbound File** ([Exhibit 19](#)).

Exhibit 19. Action Menu (showing the FTP Outbound File menu item)

A confirmation popup is displayed ([Exhibit 20](#)).

Exhibit 20. FTP Confirmation Popup

4. Select **Yes** to proceed.

A message is displayed upon successful completion ([Exhibit 21](#)).

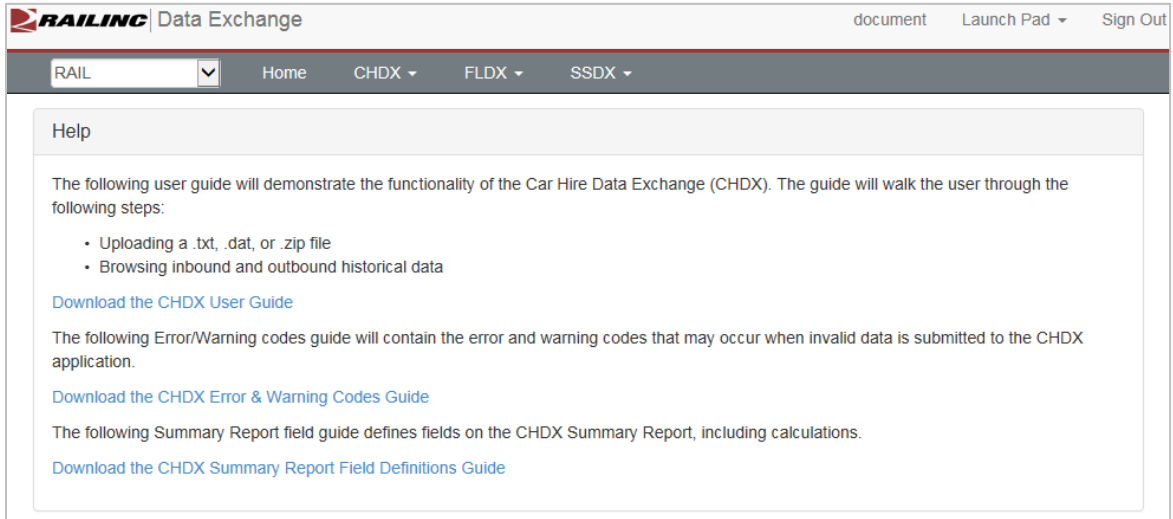

Exhibit 21. FTP Success Message

Accessing Help

Use the links on the help page ([Exhibit 22](#)) to access a number of useful resources.

Exhibit 22. Help Page

Here are the options available on the Help page:

- **Download the CHDX User Guide:** Use this option to download the latest version of this user guide.
- **Download the CHDX Error & Warning Guide:** Opens the Error/Warning codes guide ([Exhibit 23](#)), which contains the error and warning codes that may occur when invalid data is submitted to the CHDX application.

Exhibit 23. CHDX Error & Warning Guide

	A	B	C	D	E	F	G	H

- **Download the CHDX Summary Report Field Definition Guide:** Opens the CHDX Summary Report Field Definitions Guide ([Exhibit 24](#)) which defines fields on the CHDX Summary Report, including calculations.

Exhibit 24. CHDX Summary Report Field Definition Guide

CHDX Inbound Summary Report - field definitions								
File Name:	submitted file name and extension							
Submitting Profile ID:	Roadmark uploaded through							
Allowed Date:	CCYYMM two months in arrears (Allowed Century/Year/Month CTC08CTC07CTC06)							
Date Received:	CCYY-MM-DD hh:mm EDT time Railinc received file							
Date Validated:	CCYY-MM-DD hh:mm EDT time Railinc validated file							
Download CHDX Error Code Details	hyperlink to Excel spreadsheet of CHDX error and warning codes							
Total Records Received:	total CV rows received							
Total Records Validated:	total CV rows validated							
Total Records Rejected:	total CV rows rejected							
Total Summary Records:	total CV rows where CTC03 = 9							
CHDX Submitted Total							Railinc Total	
Carrier	Car Owner	Account Type Code	TSP Code	Account Description Code	Earned Date	Summary Amount	Detail Amount	Variance
1	2	3	4	5	6	7	8	9
CTC01	CTC02	CTC04	CTC05	CTC12	CTC11 CTC10 CTC09	total of CV09s where CTC03 = 9	total of CV09s where CTC03 = 1	Summary Amt subtract Detail Amt
CTC where CT03 = 9 (summary row)					*see below	*see below	*see below	*see below
Earned Date								
Column 6 is Earned Century Earned Year Earned Month without spaces as CTC11CTC10CTC09								
Summary Amount								
Column 7 is the total of all CV09s - Roadmark submitted where CTC03 = 9 (summary row) with the same first 5 columns:								
Column 1	Carrier CTC01							
Column 2	Car Owner CTC02							
Column 3	Account Type Code CTC04							
Column 4	TST Code CTC05							
Column 5	Account Description Code CTC12
