

## **FindUs.Rail**

**I am not a car owner or a railroad. However, I would like to receive notifications on cars that may be shopped, etc., because I am leasing cars and need to know this information.**

The lessor can send a Letter of Authorization to Railinc that grants you the permission to register in FindUs.Rail. If the car owner will allow this, they can send an LOA to Railinc granting you the permission to register in FindUs.Rail.

**I am a repair shop and need to register at Railinc to have cars sent to my shop. What do I do?**

In addition to registering for shop user for DDCT access, you also will need to register in FindUs.Rail and enter your contact information. Also, please refer to the [Get Started with DDCT](#) page on [www.railinc.com](http://www.railinc.com).

**Are there different categories for Rule 1 Car Disposition versus Rule 107 in FindUs.Rail?**

Yes. You will need to register in FindUs.Rail to receive notifications for defective equipment (Rules 1 and 108) and damaged equipment (Rules 95 and 107).
