# 2012 DDCT Project Update

- DDCT TAG has prioritized and tested new features and functionality to DDCT
- Release is scheduled for July 12, 2012
- Railinc will send release notification to DDCT users
- DDCT User Guide will be updated with new features and functionality changes

# DDCT Release - July 12, 2012

- New features and enhancements will be implemented July 12, 2012
- Some of the new features and enhancements are:
  - New and updated notifications to Handling Carrier (HC), Car Mark Owner (CMO) and Shop
  - Incidents updated with new active equipment when equipment is restenciled in Umler

# DDCT Release - July 12, 2012

- Reason Codes for removing equipment including when equipment is deleted from Umler
- CMO can use current origin or destination as disposition location for valid waybill locations

# Informational/Warning Messages

- Informational message will contain the specific contact not found in FindUs.Rail for company id/mark
  - For example, No CMO Defective contact exists
- Warning message displayed to HC when an incident exists with same equipment under same rule
- Warning message displayed to CMO when disposition has been provided for the same equipment

# Notifications

- Restenciled Equipment - notification sent to prior CMO and HC
  - Incident will be updated with new equipment
- Deleted Equipment - notification sent to CMO and HC when equipment on an open incident has been deleted from Umler
  - Incident will show Deleted in Umler
- Shop - email notification sent when equipment is dispositioned to shop

# Provide Disposition

- Dispositioned Shop - CMO or HC will have ability to view company id/mark of last shop location:
  - Provide Disposition screen
  - Repair Details screen
  - Audit Log screen
  - Car Repair Details screen
- Handling Carrier allowed to provide disposition after 15 calendar days for a Rule 108 incident

# Disposition Location from Waybill

- CMO will have option to select location of the waybill when providing disposition for Rule 1 incidents only
- Provide Defective Car Disposition screen will display option for waybill location when waybill has:
  - Name of company
  - Standard Point Location Code (SPLC)
  - Company Location
