ITEM 2.10	RULES AND OTHER GOVERNING PROVISIONS GENERAL RULES AND REGULATIONS
LIST OF PARTICIPATING CARRIERS ALPHABETIZED BY STANDARD CARRIER ABBREVIATION	ITEM 5
(See Note 1)	REFERENCE TO TARIFFS, ITEMS, NOTES, RULES, ETC
 TR - Tomahawk Railway, Limited Partnership	 Where reference is made in this tariff to tariffs, items, notes, rules, etc., such references are continuous and include supplements to and successive issues of such tariffs and reissues of such items, notes, rules, etc. Where reference is made in this tariff to another tariff by number, such reference applies also to such tariff to the extent it may be applicable on intrastate traffic or traffic to or from Canada.
	ITEM 10
EXPLANATION OF NOTES	CONSECUTIVE NUMBERS
 Items of general application in Sections 1 and 2 affecting the participation of all or large groups or numbers of carriers are not listed in this column. 	 Where consecutive numbers are represented in this tariff by the first and last numbers connected by the word "to" of a hyphen they will be understood to include both of the numbers shown. If the first number only bears a reference mark such reference mark also applies to the last number shown and to all numbers between the first and last numbers.
	ITEM 15
	CANCELLATION OF ORIGINAL AND REVISED PAGES
	When this tariff is amended by revised pages, the cancellation of prior pages, will be affected by means of this rule. A revised page will not show a cancellation notice except when a cancellation notice is necessary because of suspension, rejection, or other reasons. Revisions of each page will be published and filed in numerical sequence. (Items containing changes will be highlighted in yellow.) For Example: "1st Revised Page 6" will have the effect of canceling Original Page 6; "3rd Revised Page 72.1" will have the effect of canceling 2nd Revised page 72.1; and, 2nd Revised page 72.1 will have the effect of canceling 1st
	Revised page 72.1.

SECTION 1 APPLIES ONLY ON TANK CARS	SECTION 1 EXCEPTION TO APPLICATION OF RATES APPLIES ONLY ON TANK CARS
ITEM 25	ITEM 30
APPLICATION OF SECTION 1	GENERAL EXCEPTION
 The term "Cars of Private Ownership", when used in this tariff, is defined as cars bearing other than Railroad Reporting marks that are owned by individuals, firms, corporations, or car companies, including cars owned and/ or operated by railroad controlled car lines. 	The rules and mileage allowances published herein will not apply to: A. Cars that are not properly registered in the Official Railway Equipment Register, RER 6414-Series,
 Except as otherwise provided herein, these rules govern the handling of tank cars including the payment of mileage allowances, when used by railroads parties to this tariff individually or jointly, where specifically provided herein, for transportation over their lines as follows: 	showing capacities and assigned reporting marks. B. Mileage allowances named in Item 195-Series of this tariff will not apply to cars handled under the provisions of Item 190.
A. Between points in the United States (interstate and intrastate) including movements where part of the through route is through Canada.	ITEM 35 APPLIES ONLY FOR CARRIERS NAMED IN THIS ITEM
B. Internationally, i.e., between points in the United States and points in Canada. (Applicable only on that portion of the haul within the United States).	The provisions of Item 187-Series "Equalization of Mileage on Tank Cars of Private Ownership", will not apply in connection with carriers named below:
C. For that portion of the haul in the United States in connection with movements between points in Canada where part of the through route is through the United States.	Apache Railway Company, The Escanaba and Lake Superior Railroad Company Iowa Northern Railway [A] Kansas City Southern Railway Company (Stations 31011 to 31315 only) Mississippi Export Railroad Providence and Worcester Railroad Company Tomahawk Railway, Limited Partnership Trona Railway Company Tulsa Sapulpa Union Railway Company
ISSUED: August 15, 2019	EFFECTIVE: September 1, 2019
ISSUED BY: Railinc, Agent, Cary, NC 27513 For explanation of abbreviations and reference marks not explained	ed herein, see Item 9999, this tariff

SECTION 1	SECTION 1			
EXCEPTION TO APPLICATION AND RULES APPLIES ONLY ON TANK CARS	EXCEPTION TO APPLICATION AND RULES APPLIES ONLY ON TANK CARS			
ITEM 50	ITEM 73			
APPLIES ONLY FOR CARRIERS NAMED IN THIS ITEM	BNSF RAILWAY COMPANY (EXCEPTION TO ITEM 190)			
 Empty privately-owned or leased tank cars used or to be used in Intra-Mexican service will be subject to the following provisions: A. Owner or lessee shall secure an entry permit from the involved Mexican carrier prior to empty movement to the border crossing and permit number must be shown in the uniting instructions experiment of the permit per	When a tank car is released from load on BNSF, the empty will be returned via the reverse of the loaded route to the origin station of the last loaded movement. If the owner or lessee of the car desires movement via a different route or to a station other than the origin of the last loaded movement, empty billing instructions must be given to:			
the writing instructions accompanying such car.B. Subsequent to Intra-Mexican service, written instructions for each car entering the U.S. must clearly indicate the exact consignee or facility for disposition of the car prior to movement beyond the border gateways.	BNSF Railway Co. Carload Billing 920 S.E. Quincy Topeka, KS 66612 Telephone: (800) 786-2873 FAX: (800) 786-2455			
C. Upon failure to comply with paragraphs A or B, a holding charge of \$10.00 per day will be assessed for each 24 hours or fraction thereof beginning at 7:00 AM of the day following arrival of such empty privately owned or leased car at the border crossing, (excluding Saturdays, Sundays and holidays), until provisions of paragraphs A and B as applicable are fulfilled.	prior to release of the empty car. If the owner or lessee of the car requests movement via a different route, or to a station other than the origin of the last movement, after release of the empty car, diversion provisions and charges, as named in BNSF Diversion Tariff 6200 Series, are applicable.			
BNSF Railway Company Union Pacific Railroad Company	ITEM 75			
	BUFFALO & PITTSBURGH RAILROAD, INC. (BPRR)			
ITEM 70 BNSF RAILWAY COMPANY (LINES IN CANADA) This tariff also applies on all traffic moving over the lines of the BNSF in Canada.	The provisions of Item 190-Series, or other provisions for the movement of empty tank cars without charge to or from facilities for cleaning, lining, relining, maintenance, modification, repair or storage, will not apply to such cars moving to or from facilities served by the BPRR unless the empty movement is immediately preceded by or followed by a loaded revenue movement via the BPRR. In all other circumstances, the published tariff charges in Tariff BPRR 4004-Series for movement of empty cars on their own wheels to and from repair or storage facilities shall apply.			
BNSF RAILWAY COMPANY				
(EXCEPTION TO ITEM 190) The provisions of Item 190 Series for the movement of empty tank cars without charge to or from facilities for cleaning, lining, relining, maintenance, modification, retrofit or repair, will not apply to such cars moving via BNSF to/from such facilities unless the empty movement is immediately preceded by a loaded line haul revenue movement via BNSF. In all other circumstances, the published tariff charges in BNSF 90020, and other applicable BNSF price authorities, for the movement of empty cars on their own wheels shall apply and will be assessed to the car owner.	ITEM 80 CEDAR RAPIDS AND IOWA CITY RAILWAY COMPANY (CIC) The provisions of Item 190-Series or other provisions provided in this tariff for the movement of empty tank cars without charge to and from facilities for cleaning, lining, relining, maintenance, modification, repair or storage, etc., will not apply for account of the CIC. For Rules and charges to apply, see Freight Tariff CIC 4006-Series.

SECTION 1 EXCEPTION TO APPLICATION AND RULES APPLIES ONLY ON TANK CARS

ITEM 90

CANADIAN NATIONAL RAILWAY COMPANY

The tariff rules contained herein regarding tank car movements will not apply to the movements described in Item 25.2.C. For those movements, the rules and charges contained in Tariff CN 6544 shall apply.

The provisions of Item 190 Series for the movement of empty tank cars without charge will not apply to such cars moving to or from facilities for cleaning, lining, relining, maintenance, modification, repair, or storage, via CN unless the empty movement is immediately preceded by a loaded line haul revenue movement via CN in the last <u>nine (9) months</u>, and will not apply to other empty tank cars moving to, from or via CN unless the car has been used for a loaded move in commercial service via CN within the previous <u>nine (9) months</u>. In all other circumstances, the published tariff charges in CN 890000, and other applicable CN price authorities, for the movement of empty cars on their own wheels shall apply and shall be assessed to the party that is identified on the waybill as the PAYER OF FREIGHT.

Note: A loaded Reciprocal Switch movement is not considered a revenue line haul movement.

If the payer of freight information on the waybill is missing, inaccurate or cannot otherwise be determined by the shipment information, the equipment LESSEE identified in the Universal Machine Language Equipment Register (UMLER) will be responsible for all charges. If the LESSEE information in UMLER is missing or inaccurate, the equipment owner identified in UMLER will be responsible for all charges.

(Underscored portion denotes change.)

SECTION 1 EXCEPTION TO APPLICATION AND RULES APPLIES ONLY ON TANK CARS

ITEM 99

CANADIAN PACIFIC RAILWAY (EXCEPTION TO ITEM 190)

The provisions of Item 190 Series for the movement of empty tank cars without charge to or from facilities for cleaning, lining, relining, maintenance, modification or repair, will not apply to such cars moving via CPRS from or to said facilities unless the empty movement is immediately preceded by a loaded revenue movement via CPRS. In all other circumstances, the published tariff charges in Tariff CP 4000 Series for movement of empty cars on their own wheels shall apply and will be assessed to the car owner.

On shipments moving within Canada, CP's Mileage Equalization program in Tariff CP 6 applies, except on miles in Canada for "bridge traffic" which only passes through the Canada for routing purposes that are under the terms of this tariff.

ITEM 102

COLUMBUS AND GREENVILLE RAILWAY (CAGY)

The provisions of Item 190-Series, or other provisions for the movement of empty tank cars without charge will not apply to such cars moving, to, from, or via the CAGY unless the empty movement is immediately preceded by or followed by a revenue movement via Columbus and Greenville Railway. In all other circumstances, charges published in the Uniform Freight Classification for movement of empty cars on their own wheels observing the single line minimum charge shall apply.

ITEM 104

CHICAGO SOUTH SHORE AND SOUTH BEND RAILROAD (CSS)

The provisions of Item 190 Series, or other provisions for the movement of empty tank cars without charge to or from facilities for cleaning, lining, relining, maintenance, modification, repair or storage, will not apply to such cars moving via Chicago South Shore and South Bend Railroad from or to said facilities unless the empty movement is immediately preceded by or followed by a loaded revenue movement via Chicago South Shore and South Bend Railroad. In all other circumstances, the applicable CSS publication for the movement of empty cars on their own wheels shall apply.

SECTION 1 EXCEPTION TO APPLICATION AND RULES APPLIES ONLY ON TANK CARS

ITEM 106

CSX TRANSPORTATION INC.

The participation of this carrier is restricted to movements over its lines, as follows:

- A. Between points in the United States, including movements where part of the through route is through the Dominion of Canada.
- B. For that portion of the haul in the United States on international movements, i.e., between points in the United States and points in the Dominion of Canada.

ITEM 120

IOWA INTERSTATE RAILROAD, LLC (IAIS) (EXCEPTION TO ITEM 190)

Provisions of Item 190-series, or any other provision provided in this tariff, regarding the movement of empty tank cars without charge to or from Repair Facilities (any facility that cleans, lines, relines, maintains, modifies, repairs, or retrofits tank cars) or to and from storage, will not apply for the account of IAIS. Movements of empty tank cars to or from Repair Facilities or storage will be subject to the rules and charges provided in the applicable IAIS tariff(s).

ITEM 124

KANSAS CITY SOUTHERN RAILWAY COMPANY, THE

Provisions of Item 190 Series, or any other provision allowing for free switching service of an empty freight car (or cars) to or from shop facilities for cleaning, lining, relining, maintenance, modification or repair, will not apply to and from shop facilities served by KCS. Matter of switch charge will be handled by the applicable KCS Tariff.

ITEM 131

NORFOLK SOUTHERN RAILWAY COMPANY

When it is necessary to move a loaded private car to/from shop or repair facilities located on NS, NS will pay mileage payments not to exceed the amount that would have been earned had the car not required additional rail movements to/ from shop or repair facilities, provided that the mileage allowances for the loaded movement are not elsewhere restricted.

ITEM 180

PAYMENT OF MILEAGE

- Upon written application reporting marks will be assigned to car owner or lessee by the Assistant Vice President, Business Services, Association of American Railroads, provided applicants are subscribers to the AAR Mechanical Interchange Agreement. Applications for reporting marks shall state the owner and lessee for cars under lease. Contact information is required in FindUs.Rail (www.Railinc.com).
- Mileage allowance must be reported to the car owner (person or company at a single address, to whom the reporting marks are assigned) within one (1) month and ten (10) days from the last day of the month in which it is earned including payment for cars on hand at the end of that month.
- 3. Mileage allowance for the use of tank cars will be paid only to the person or company at a single address, to whom the reporting marks are assigned provided cars are properly equipped and marked with the assigned reporting marks and car number, and providing further that:
 - A. A description of each car is furnished to the Assistant Vice President, Business Services, AAR, as required in the Umler Data Specification Manual at <u>www.Railinc.com</u>, <u>Products & Services</u> for the assignment of applicable mileage allowances. Such information received by the Assistant Vice President by the last working day of the month except, data transfers requiring data entry by AAR/Railinc staff must be received by the 25th day of the month, will be effective the first day of the subsequent month. Cars registered with transportation code "S_", "SX", "XA", "XZ" or "YA" are not eligible for mileage allowances and will be assigned a zero rate.
- 4. Reporting marks assigned to private car owners shall consist of four letters including the final letter "X".
- 5. Assigned reporting marks must be painted or stenciled on the body of the car. When reporting mileage allowances, the carding, placarding, or boarding of cars will not be recognized.

ITEM 182

DEDUCTIONS AND MILEAGE CLAIM HANDLING PROCEDURES

- 1. Deductions By Railroads To Private Car Owners
 - A. Mileage allowed in error, by a railroad, including, but not limited to mileage allowed at incorrect rates for any reason, may be deducted from the car owner's account within twenty-four (24) months from the last day of the month for which the mileage was reported as earned, but not later. A railroad may tender an invoice for mileage allowed in error at any time within twenty-four (24) months from the last day of the month for which the mileage was reported as earned. Except as provided in paragraph 3, an owner-lessor of a private car must remit within eight (8) months after the invoice is presented the entire amount of any invoice issued to it.

(Continued in next column)

SECTION 1 RULES AND REGULATIONS APPLIES ONLY ON TANK CARS

ITEM 182 (Cont'd)

DEDUCTIONS AND MILEAGE CLAIM HANDLING PROCEDURES

- B. Deductions for amounts of \$25.00 or less shall not be taken after the expiration of two (2) months and ten (10) days from the last day of the month the mileage was earned.
- 2. Claims Issued By Private Car Owners To Railroads
 - A. A private car owner must, within twenty-four (24) months from the last day of the month the completed cycle was reported, present any claim for mileage allowance discrepancies, including incorrect rates or omissions, to the applicable rail carrier in the prescribed AAR format, as published in AAR Circular No. OT-3 Series at www.Railinc.com, Reference Files. Claims not presented in the required format will not be processed. The railroad receiving the claim must within the four (4) months from the date on which the claim was presented allow it in whole or in part, or decline it. The private car owner may reissue its claim, if applicable within four (4) months from the last day of the four (4) months' period allowed the railroad which handled the claim prior to reissuance. The railroad receiving the reissue claim must within four (4) months from the date of which the reissued claim was presented allow it in whole or in part or decline it. If the railroad fails to handle the original or reissued claim within the prescribed time limits, it will constitute a valid claim as last presented and must be honored by the railroad to which presented. Claim for amounts of \$25.00 per car per cycle or less shall not be issued. The \$25.00 limit is not applicable where no miles were reported for the railroad cycle.

3. Claims by Owners-Lessors

A. If a railroad takes a deduction against or issues an invoice to an owner-lessor for mileage allowed in error, including, but not limited to, mileage allowed at incorrect rates for any reason, but the erroneous allowance payment is not recoverable by the owner-lessor as defined below, the owner-lessor may present a claim for the recovery of the amounts deducted by the railroad or the cancellation of an unpaid invoice within two (2) years of receiving notice of the railroad's deduction or invoice. For application of this tariff provision, an owner-lessor may claim that an erroneous mileage payment is "not recoverable" only when (a) the erroneous mileage payment was actually paid or credited by the owner-lessor to a lessee (except those lessees whose primary business is the leasing of cars to entities other than those within a lessee's corporate family and who ship only incidentally) irrespective of whether the lessee subsequently paid or credited the mileage allowance payment to a sublessee; (b) the erroneous allowance payment cannot be recovered from the lessee because the lessee has declared bankruptcy or sought reorganization or is no longer a lessee of the owner-lessor; (c) the owner-lessor exercised timely efforts to recover the erroneous allowance payment beginning within ninety (90) days of receiving notice of the railroad's deduction or invoice;

EFFECTIVE: March 1, 2015

Original Page 11

SECTION 1 RULES AND REGULATIONS APPLIES ONLY ON TANK CARS

ITEM 182 (Cont'd) DEDUCTIONS AND MILEAGE CLAIM HANDLING PROCEDURES

- 3. Claims by Owners-Lessors
- A. (Cont'd) and (d) the owner-lessor undertook diligent collection efforts to recover the erroneous allowance payments until eight (8) months from the date of such notice or invoice (or until the earlier date of initiation of bankruptcy/reorganization proceedings), including making demands for payment and taking deductions against lessees' accounts. Such a claim must be accompanied by a certificate assigned by an officer or other person specifically authorized to sign the certificate of the owner-lessor stating how the claim satisfied each of the requirements set forth above, together with documents reflecting the owner-lessor's collection efforts. If, using reasonable efforts, the railroad is unable to determine whether the lessee's primary business is the leasing of cars to entities other than those in the lessee's corporate family, it shall consult with the owner-lessor, which shall provide the railroad with any evidence of the lessee's shipping activities which may be available to the owner-lessor using reasonable efforts. The owner-lessor shall provide the railroad with an assignment of the owner-lessor's claims and rights to collect the amount not recovered upon payment of the claim of cancellation of the invoice by the railroad.
- B. If the railroad had deducted the amount of an erroneous allowance payment from an owner-lessor, the railroad must remit to the owner-lessor the amount deducted within four (4) months of its receipt of a properly presented, valid claim from the owner-lessor.

ITEM 185

COMPUTATION OF MILEAGE (See Exceptions 1 through 6)

- Mileage will be computed on the basis of actual distance based on freight mileage tables of the individual lines parties to this tariff, lawfully on file, via the route of movement from station of origin or station at which received from connecting line to destination station or to stations at which delivered to connecting line without deduction of mileage through switching districts (see Note 1).
- When the transportation begins and ends, i.e., when a car is both loaded and unloaded, within a switching district, no mileage will be allowed. Mileage between an industry or public track and freight station at station of origin or destination will not be allowed.

Continued in next column)

SECTION 1 RULES AND REGULATIONS APPLIES ONLY ON TANK CARS

ITEM 185 (Cont'd)

COMPUTATION OF MILEAGE (See Exceptions 1 through 6)

EXPLANATION OF NOTES

 The intent of the clause "without deduction of mileage through switching districts" is to insure mileage being allowed for the full distance the car moves, via route of movement from freight station of origin to freight station to which destined. When there are two or more freight stations on a road within a switching district, mileage will be paid to or from the station within such district at which the car is actually loaded or unloaded or at which it is received from or delivered to connecting line.

EXCEPTIONS

- In computing distances between stations on the UP on the one hand and stations on the KCS on the other hand, via the New Orleans Gateway, deduct 11.5 miles from the actual distance to and from New Orleans via the UP and 5.4 miles from the actual distance to and from New Orleans via the KCS.
- 2. Mileage will be allowed on movements having origin and destinations at stations or districts within the Chicago Switching District, provided the movements originate at or are destined to industries having private sidings.
- 3. In computing distances between stations on the UP on the one hand and stations on the IC on the other hand via the New Orleans Gateway, deduct 11.5 miles from the actual distance to and from New Orleans, LA via the UP and 5.1 miles from the actual distance to and from New Orleans via the IC.
- 4. In computing distances from, to or via KCS on traffic routed via New Orleans, LA, interchanged at Shrewsbury, LA, deduct 5.4 miles from the actual distance to and from New Orleans, LA on the KCS.
- 5. When for account of the KCS, mileages will be computed on basis of the shortest distance over the route of these lines determined by freight mileage tables lawfully on file, in lieu of actual distance as provided in Paragraph 1 of this item.
- 6. All traffic between West Lake, LA on KCS and interchange with UP will be made at De Quincy, LA, in lieu of Lake Charles, LA for carriers convenience and to facilitate industries located at West Lake, LA. KCS will not pay mileage allowance between West Lake, LA and De Quincy, LA, when cars are moving under provisions of UP reroute orders.

SECTION 1 RULES AND REGULATIONS APPLIES ONLY ON TANK CARS

ITEM 187 (Cont'd)

EQUALIZATION OF MILEAGE ON TANK CARS OF PRIVATE OWNERSHIP

PART D

ANNUAL NATIONAL EQUALIZATION ACCOUNTING

- 1. After May 20 of each year, the Assistant Vice President, Business Services, AAR will summarize all empty and loaded mileage by reporting mark assigned to any person or company, reporting for the proceeding calendar year, by all participating carriers to this tariff. Should the aggregate empty mileage exceed the aggregate loaded mileage of all participating carriers by more than (6) percent for any such group of reporting marks, the person or company to whom the reporting marks are assigned will be billed at the rate of \$1.24 per mile without minimum and must pay the AAR on behalf of each participating carrier for such excess for such empty mileage. The charges collected for this excess empty mileage will be distributed to the participating carriers by the AAR in direct proportion to such carriers portion of excess empty mileage to the total accumulated excess empty mileage. Only that mileage and any related adjustments reported to the Assistant Vice President prior to May 20 will be considered in determining and excess empty mileage, as outlined herein (See Notes 1, 2 and 3).
- 2. An annual national equalization statement detailing the excess empty mileage accumulated and any applicable charges will be tendered by the Assistant Vice President to the person or company assigned the reporting mark(s) for such cars for verification no later than July 1 of the year succeeding the equalization accounting year. Exceptions to this statement must be received by the Assistant Vice President within 30 days of the date tendered, and payment for all excess empty mileage is due immediately thereafter. Any adjustments made by the participating carriers up to and including the March account applicable to the prior year(s) will be incorporated in the equalization accounts for the prior equalization accounting year. Any railroad or AAR adjustments made subsequent to the March account will be carried over to the following equalization accounting year (See Note 3).
- 3. A private car company or owner failing to render complete payment for all excess empty mileage within thirty (30) days of the date its equalization statement is tendered by the AAR will be subject to a penalty of one and a half percent (1.5%) interest per month (i.e., annual rate of 18%) for each calendar month or fraction thereof on any outstanding balance due from the date of the AAR's invoice statement. If any portion of a private car company's or owner's equalization statement remains unpaid in excess of 3 months from the date initially tendered, all mileage allowances accrued by the tank cars registered in the Umler file bearing its reporting marks will be withheld by the carriers participating in this item until such time as complete payment including applicable penalty interest is made. Once complete payment is made, the participating carriers will be notified by the AAR and claims for any applicable mileage allowances withheld will be honored, less a 15% penalty charge for the carriers' administrative expense.

(Continued in next column)

SECTION 1 RULES AND REGULATIONS APPLIES ONLY ON TANK CARS

ITEM 187 (Cont'd)

EQUALIZATION OF MILEAGE ON TANK CARS OF PRIVATE OWNERSHIP

PART D ANNUAL NATIONAL EQUALIZATION ACCOUNTING

EXPLANATION OF NOTES

- The ⇒ \$1.24 per mile charges for excess empty mileage under the provisions of this item is subject to revision September 1 of each year under Ex Parte No. 328 agreed annual update procedures, and will be retroactively applied to cover the entire calendar year involved.
- 2. Close out dates specified in Part D may be extended by the AAR for a maximum of 60 days for special national accounting problem conditions, affecting substantially all carriers and all owners.
- Invoices that have been issued which, after investigation, are determined to have been erroneous due to rail carriers or AAR accounting and/or system errors may be cancelled by the Assistant Vice President.

ITEM 190

HANDLING OF EMPTY TANK CARS (SEE NOTE 2)

- 1. When a tank car is released from load, the owner or lessee must issue instructions for the disposition of the empty car to the agent at point of unloading either direct or through consignee or via EDI. Empty instructions may also be included with the original loaded shipping instructions if transmitted via EDI. If the owner or lessee fails to have instructions in the hands of the railroad agent having jurisdiction at point of unloading prior to the time the car is released from load to forward the car or written instructions to hold it, the agent is authorized to forward the empty car to the origin point of the last load via reverse of the loaded route. No tank car which last contained hazardous material may be moved without having shipping instructions furnished as per Title 49 Code of Federal Regulations.
- 2. Empty tank cars will be handled as follows:
 - A. Except as otherwise provided in this tariff, cars covered by this section will be moved empty without charge between stations or junction points upon receipt of instructions from the car owner or lessee confirmed in writing. Such instructions must include the specific facility to which such empty car is consigned or the name and address of the person or company which controls the car. No allowance will be made for mileage of such cars during empty movement.
 - B. A new car, a car that is restenciled with private reporting marks or a newly acquired car moving prior to its first loaded move in commercial service and a newly acquired car moving prior to its first loaded move in commercial service and a car moving for sale or scrap will be moved upon surrender of a bill of lading and will be subject to applicable rates. (see Note 1).

(Continued on next page)

ISSUED: August 6, 2024

ISSUED BY: Railinc, Agent, Cary, NC 27513

For explanation of abbreviations and reference marks not explained herein, see Item 9999, this tariff.

SECTION 1 RULES AND REGULATIONS APPLIES ONLY ON TANK CARS

ITEM 190 (Cont'd)

HANDLING OF EMPTY TANK CARS (SEE NOTE 2)

- 2. Empty tank cars will be handled as follows: (Cont'd)
 - C. If the owner or lessee or party issued instructions to forward the empty tank car to the origin point of the last load by specific routing different than the reverse routing of the loaded movement, the total miles of such return movement will be billed at the excess empty mileage rate specified in Item 187-Series without minimum and such empty mileage so billed will be excluded from the equalization account of the owner. This billing will be made to, and collectable from, the person so requesting such variance in the return routing. If the carriers depart from the destinations, junctions or carriers of the reverse route of the load, any resulting excess empty miles will be excluded from the car owner's equalization account by erring carrier.

EXPLANATION OF NOTES

- 1. A car loaded with railroad company material moving on non-revenue billing will be considered as having been loaded in commercial service on which the railroads derived line-haul revenue.
- 2. The provisions of this item apply except as otherwise provided in Item 192-Series of this tariff.

ITEM 192

HANDLING AND HOLDING OF EMPTY TANK CARS BY RAILROADS ON RAILROAD TRACKS (SEE NOTE 1)

- The rules and charges in this item apply only to empty private tank cars consigned to non-railroad repair facilities; i.e., facilities for cleaning, lining, relining, maintenance, modification or repair.
- 2. The rules and charges do not apply to:
 - A. Empty private tank cars moving as revenue freight under the provisions of Item 190-Series, Paragraph B 2.
 - B. Empty private tank cars handled or held for carrier operating convenience.
 - C. Empty private tank cars en route to facilities for cleaning, lining, relining or repair for heavy repairs following railroad damage.
 - D. Empty private tank cars en route to repair facilities located on the premises of a shipping facility, provided that the empty car, after repair, is subsequently shipped from the facility in revenue freight service.
- 3. No allowance will be made by carriers for mileage accrued during supplemental empty movement of tank cars that are assessed charges as provided in Paragraph 5.

(Continued in next column)

SECTION 1 RULES AND REGULATIONS APPLIES ONLY ON TANK CARS

ITEM 192 (Cont'd)

HANDLING AND HOLDING OF EMPTY TANK CARS BY RAILROADS ON RAILROAD TRACKS (SEE NOTE 1)

- 4. Charges applicable under these provisions will apply to empty private tank cars which the consignee has not ordered to their cleaning, lining, relining, maintenance, modification or repair facility (or their owned or leased tracks in the vicinity thereof) before the expiration of 48 hours free time (not counting Saturdays, Sundays or holidays) after placement. The time calculation will start the first 7 A.M. subsequent to carrier notification to the consignee that the empty private car is ready for placement and the time calculation will store the carrier places or forwards the car pursuant to instructions or should have placed or forwarded the car pursuant to instructions.
- 5. After expiration of free time as provided in Paragraph 4, charges will be as follows: (See Note 2)
 - A. Supplementary handling chargetof ♦ \$137.00 per car.
 - B. Holding charge of \$1 per car per calendar day or fraction thereof including Saturdays, Sundays and holidays while held by carrier on non-leased tracks awaiting disposition.
- 6. In the event the consignee orders the car to tracks owned or leased by the consignee in the vicinity of the facility for cleaning, lining, relining, maintenance, modification or repair within the forty-eight hour period described under Paragraph 4, this item, there will be no supplementary handling charge for the movement; however, such cars will be subject to the supplementary handling charge of €137.00 per car (See Note 2) at such time that the empty tank car is subsequently ordered and moved onto the facility for cleaning, lining, relining, maintenance, modification or repair or ordered moved from that facility to the tracks or leased by the consignee in the vicinity of the facility.
- 7. Applicable billing will be monthly to the facility involved.

EXPLANATION OF NOTES

- The rules and charges in this item do not in any way supersede or duplicate existing, or new written contractual operating, side track, track lease, property lease, etc., agreements or tariffs that contain empty private tank car handling and holding provisions as part of the overall agreement.
- 2. Per ExParte No. 328, the supplemental handling charge will be revised annually at the same time as the tank car mileage allowance update, utilizing the same method as that prescribed for updating the excess mileage equalization charge.

SECTION 1 RULES AND REGULATIONS APPLIES ONLY ON TANK CARS

ITEM 195 (Cont'd)

MILEAGE RATE ALLOWANCE ON TANK "T" CAR (SEE ITEM 196 FOR EXPLANATION OF DESIGNATING SYMBOL) (SEE NOTE 1)

EXPLANATION OF NOTES

3. Applies as follows:

- A. For cars built between January 1, 1968 and July 1, 1991, assignment of owned or leased cars to value groups will be determined by the original cost as represented to the original buyer by the manufacturer's invoice price at the time of original installation into service. In the case of a manufacturer-lessor, the fair market value or the value which was certified, or would have been certified, for investment tax credit purposes shall be substituted therefore.
- B. Assignment to value groups of cars placed into service after July 1, 1991 will be determined by the original cost of the car to the original buyer as stated in the manufacturer's invoice. In only two circumstances, owners may certify as alternative "true value" in lieu of invoice price: (a) manufacturers who retain cars for their own leasing service and (b) purchasers who can demonstrate that they contributed physical assets of significant value that were used by the manufacturer in fabricating a car, resulting in a reduction of the invoice price by more than \$1,000 per car below the price that otherwise would have been charged. For manufacturers "true value" is the price for which a car or group of cars manufactured as a group would have been sold in an arm's length transaction. For purchasers who have made a qualifying contribution to fabrication, "true value" is the invoice price plus the depreciated value of the contributed assets distributed over the cars for which the assets were used, subject to the same limitations on "true value" which would apply to a manufacturer. "True value" shall not exceed the average price of similar cars registered in Umler at invoice price within the most recent 12 months for which registration information is available in Umler, adjusted for changes in the market values of new tank cars as reflected in average car prices. If the AAR determines by audit that a certified "true value" exceeds this value limit by an amount that causes a car to be placed in a higher allowance value bracket, the value of the car will be reduced to the appropriate value bracket. In addition, if the AAR determines by audit that a certified, "true value" exceeds this value limit by an amount that causes a car to be placed in allowance value bracket more than one bracket above the otherwise applicable bracket, excess allowances paid as a result of the over valuation shall be reimbursed to the paying railroads.

Those owners who certify a "true value" in lieu of invoice price during the calendar year must provide to the AAR an officer's certificate at the end of the year stating that, based on all information available to the owner, the owner has complied with the terms of this item. Car owners must supply for entry into Umler all information required for tank cars in the Umler Data Specification Manual. Notwithstanding any other provision of this tariff item, "true value" will be subject to audit directly by the AAR.

SECTION 1 RULES AND REGULATIONS APPLIES ONLY ON TANK CARS

ITEM 195 (Cont'd)

MILEAGE RATE ALLOWANCE ON TANK "T" CAR (SEE ITEM 196 FOR EXPLANATION OF DESIGNATING SYMBOL) (SEE NOTE 1) EXPLANATION OF NOTES

- 3. Applies as follows: (Cont'd)
 - C. If applicable, initial into service transportation costs, capitalized original lining costs, capitalized additions and capitalized betterments shall be added to car values determined pursuant to Paragraphs 3 (A) and 3 (B), above, if not already included in the value of the car. For cars built after January 1, 1988, capitalized inspection costs shall be added to the value, if applicable and if not already included in the value of the car. Values of the car. Values of the car. Values other than invoice price shall be identified in accordance with the current AAR Umler Data Specification Manual at the time cars are submitted to the Assistant Vice President, Business Services, AAR, for registration in the Umler file (see Note 6, this item).
 - D. The rebuilt year and rebuilt valuation of a private car will be utilized for the purpose of computing applicable mileage allowances subject to the following conditions:
 - The car must be rebuilt in accordance with the current requirements of Rule 88, Section C of the Office Manual and Sections A & B of the Field Manual, AAR Interchange Rules, Application for official rebuilt status must be filed with the Executive Director, Rules and Standards, AAR Technical Services and written formal approval received prior to registering such car in the Umler file with rebuilt age and valuation data.
 - Assignment of owned or leased rebuilt cars to value groups will be determined as outlined in Notes 3. (A), 3. (B) and 3. (C) herein, except that the maximum valuation of a rebuilt private car shall not exceed the lesser of:
 - a. 75 percent of the original cost of a comparable new car.
 - b. 75 percent of the calculated replacement cost of the rebuilt car prior to rebuilding, as computed per AAR Interchange Rule 107.
 - E. All car ages and values submitted are subject to verification by the AAR, and audit by the AAR or the owners independent public accountant upon reasonable request by the AAR. If the car owner elects to have the audit performed by its independent public accountant, such audit must be performed in a timely fashion in the manner prescribed by the AAR, will be performed at the car owner's expense and must be duly certified by the car owner's auditor as representing the true value of all cars included in such audit. Failure of the car owner to furnish the required car valuation data to the AAR Umler file, to arrange for the requested audit, or to correct errors determined as a result of such audit, will result in such car(s) being assigned to the lowest applicable mileage allowance rate group.

SECTION 1 RULES AND REGULATIONS APPLIES ONLY ON TANK CARS

ITEM 195 (Cont'd)

MILEAGE RATE ALLOWANCE ON TANK "T" CAR (SEE ITEM 196 FOR EXPLANATION OF DESIGNATING SYMBOL) (SEE NOTE 1)

EXPLANATION OF NOTES

6. Applies as follows:

- A. When an owner: (1) makes a valuation correction to the Umler file; or (2) changes the mechanical designation of cars registered in the Umler file; and such changes result in an increase or decrease in the mileage allowance rates, the Assistant Vice President, Business Services, AAR, will be so notified and the increase or decrease will be applied retroactively. Once cars have been reported to the Umler file, any of the foregoing corrections or changes that result in a retroactive increase or decrease in the mileage allowance rates will be identified by the Assistant Vice President. The car owner is required to furnish the Assistant Vice President documented proof of the basis of the correction or change and advise as to any applicable mileage allowance adjustments which are required.
- B. Retroactive Mileage Allowance Decrease: Within five (5) months from the date of a change to the Umler file resulting in a retroactive mileage allowance rate decrease, the owner will notify all using carriers of such decrease with either supporting details or a summary of the over-collections, with a copy to the Assistant Vice President. After receiving such notification, the using carrier shall deduct such amount(s), in the next open mileage reports to the car owner, plus fifteen (15) percent to reimburse the handling road for audit and associated administrative expenses. If the owner fails to send notification to the users within five (5) months, the Assistant Vice President shall notify carriers of the car initial (s) and number(s) involved and the user(s) shall make an adjustment, as described above.
- C. Retroactive Mileage Allowance Increase: Within five (5) months from the date of a change to the Umler file resulting in a retroactive mileage allowance rate increase, the owner will notify all using carriers of such increase with either supporting details or a summary of the under-collections, with a copy to the Assistant Vice President. After receiving such notification, the using carriers shall add such amount(s) in their next open mileage reports to the car owner, less fifteen (15) percent to reimburse the handling roads for audit and associated administrative expense. No retroactive mileage allowance rate increase will be applicable if the owner fails to notify the using carriers of such increase within five (5) months from the date of a change to the Umler file.

SECTION 1 RULES AND REGULATIONS APPLIES ONLY ON TANK CARS

ITEM 196

EXPLANATION OF SYMBOL USED IN ITEM 195

SYMBOL

"T" - Tank Car. Tank car means any car which is used only for the transportation of liquids, liquefied gases, compressed gases, or solids that are liquefied prior to unloading. Car may be without underframe if container serving as superstructure is designed to serve as underframe. If car has underframe, it must be designed only for the carriage of one or more enclosed containers (with or without compartments) that form the superstructure and are integral parts of the car. All such containers must be securely attached to underframe when offered for transportation but may have demountable features

For explanation of abbreviations and reference marks not explained herein, see Item 9999, this tariff.				

SECTION 2 EXCEPTION TO APPLICATION AND RULES APPLIES ON CARS OTHER THAN TANK CARS ITEM 444 (Cont'd) BNSF RAILWAY COMPANY (SEE NOTES 3 AND 4) EXPLANATION OF NOTES 1. Designating symbols (mechanical designations) will be

- assigned to car owner or lessee by the Executive Director, Rules and Standards, Technical Services, Association of American Railroads, upon written application.
- Mileage allowance named will also apply on cars carrying letters "R" and "S" affixed to the foregoing designating symbols.
- 3. The mileage allowance published herein are not applicable to cars bearing reporting marks ABOX, GONX and RBOX."
- 4. Mileage will be computed as follows:
 - A. Mileage will be computed on the basis of the distance over the routes of the BNSF based on non-familized interactive miles from ALK Technologies' PC*Miler Rail Fuel Surcharge router from the station of origin or station at which received from connecting line to destination station or the station at which delivered to connecting line.
 - B. When a car is both loaded and unloaded within a switching district, no mileage will be allowed. Mileage between an industry or public track and freight station at station of origin or destination will not be allowed.

EXPLANATION OF EXCEPTIONS

- Provisions of this item will not apply when the applicable freight tariff provides that shipper must supply equipment and that no mileage allowance will be paid.
- Mileage allowance provided in this item will not apply to new cars or newly acquired cars moving prior to their first loaded move in commercial service nor will the allowance be paid on cars moving for sale or as scrap. Such movements will be subject to applicable rates.
- 3. No mileage allowance will be paid on privately owned or leased cars bearing "MBPX" reporting mark.

SECTION 2 EXCEPTION TO APPLICATION AND RULES APPLIES ON CARS OTHER THAN TANK CARS

ITEM 445

BNSF RAILWAY COMPANY (APPLIES ON EMPTY RAILROAD MARKED FREIGHT CARS OF PRIVATE OWNERSHIP MOVING TO AND FROM A REPAIR FACILITY) (SEE EXCEPTIONS 1 AND 2 OF THIS ITEM)

1. For account of the BNSF Railway Company, provisions of any other items herein or other items published elsewhere. The line haul movement of empty railroad marked freight cars of private ownership to and from a repair facility, will not apply, unless the empty movement to and from a repair facility is in the direct reverse route of a BNSF loaded revenue line haul movement which immediately preceded that empty movement to the repair facility. If the switch charge (inbound and/or outbound respectively) will be assessed against person, form or corporation ordering such a move, in accordance with applicable switching tariffs.

2. If any portion of the line haul movement to the repair facility and from the repair facility is not in the direct reverse route of the previous BNSF line haul movement, the rates specified in Item 1000 of BNSF Price List 90020 Series or other applicable rate documents, will apply to that chargeable line haul movement to the repair facility and from the repair facility. Such charge will be assessed against and collected from the car owner as reflected in the AAR Umler Registration.

EXCEPTIONS

- 1. This item does not apply to freight cars in coal service subject to Items 250, 300 and 305 of Tariff BNSF 6041 Series.
- 2. For provisions to apply on tank cars, see Section 1 of RIC 6007-O.

ITEM 446

APPLIES ONLY FOR BNSF (APPLIES ONLY TO SPECIAL CAR TYPE "LO" CARS BEARING OTHER THAN RAILROAD REPORTING MARKS) (APPLIES ONLY IN CONNECTION WITH THE PROVISIONS OF PARAGRAPH 2, PART C, ITEM 615)

An empty car ordered to a station not authorized for loading under the provisions of Item 605, will be transported to the nearest convenient holding point, or to the billed station if such a holding point is not reasonably accessible, and held for disposition instructions following telephone or telegraphic notification to the car owner or lessee as identified in the AAR Umler file. Mileage incurred in the movement, both to and from the point at which the car is held, will be billed at the rate of thirty-two (32) cents per mile. Applicable switching charges will be additionally assessed. Any car held by BNSF awaiting disposition instructions will be subject to the provisions and charges of BNSF Demurrage Tariff 6004 Series.

ISSUED: February 19, 2015

EFFECTIVE: March 1, 2015

ISSUED BY: Railinc, Agent, Cary, NC 27513

Revised 4th Page 25

SECTION 2 EXCEPTION TO APPLICATION AND RULES APPLIES ON CARS OTHER THAN TANK CARS

ITEM 448

BNSF RAILWAY COMPANY

The BNSF Railway Company will pay an allowance of four (4) cents per loaded and empty mile for flat cars with mechanical designation "FM" when equipped with 100 ton trucks and having a nominal capacity of 195,000 lbs or over, carrying reporting marks "JTHX" in car series 1001 through 1012.

ITEM 449

BUFFALO & PITTSBURGH RAILROAD, INC. (BPRR)

The provisions of Item 615-Series, or other provisions for the movement or handling of empty freight cars, other than tank cars, without charges to or from facilities for cleaning, lining, relining, maintenance, modification or repair or storage, will not apply to such cars moving to or from facilities served by the BPRR. In all other circumstances, the published tariff charges in Tariff BPRR 4004-Series for movement of empty cars on their own wheels to and from repair or storage facilities shall apply.

ITEM 450

CEDAR RAPIDS AND IOWA CITY RAILWAY COMPANY (CIC)

The provisions of Item 615-Series or other provisions provided in this tariff for the movement of empty freight cars (other than empty tank cars) without charge to and from facilities for cleaning, lining, relining, maintenance, modification, repair or storage, etc., will not apply for account of the CIC. For Rules and charges to apply, see Freight Tariff CIC 4006-Series.

ITEM 451

CHICAGO, SOUTH SHORE AND SOUTH BEND RAILROAD (CSS)

The CSS will pay an allowance of four (4) cents per mile for flat cars specially equipped with bulkheaded ends, a steel "A" frame or steel center beam down the center and chains, cables and clamps providing adjustable tie-downs or other equipment suitable for handling packaged units of lumber and building products.

ITEM 452

CHICAGO SOUTH SHORE AND SOUTH BEND RAILROAD (CSS)

The provisions of Item 615 Series or other provisions for the movement of empty freight cars, other than tank cars, without charge, to or from facilities for cleaning, lining, relining, maintenance, modification, repair or storage, will not apply to such cars moving via Chicago South Shore and South Bend Railroad from or to said facilities unless the empty movement is immediately preceded by or followed by a loaded revenue movement via Chicago South Shore and South Bend Railroad. In all other circumstances, the applicable CSS publication for the movement of empty cars on their own wheels shall apply.

SECTION 2 EXCEPTION TO APPLICATION AND RULES APPLIES ON CARS OTHER THAN TANK CARS

ITEM 453

COLUMBUS AND GREENVILLE RAILWAY (CAGY)

The provisions of Item 615-Series, or other provisions for the movement of empty freight cars without charge will not apply to such cars moving to, from, or via the CAGY unless the empty movement is immediately preceded by or followed by a revenue movement via CAGY. In all other circumstances, charges published in the Uniform Freight Classification for movement of empty cars on their own wheels observing the single line minimum charge will apply.

ITEM 454

CANADIAN NATIONAL RAILWAY COMPANY

- 1. The provisions of Item 615-Series, or other provisions for the movement of empty freight cars - other than tank cars - without charge will not apply to such cars moving to, from, or via CN unless the empty movement is immediately preceded by a revenue linehaul movement via CN in the last nine (9) months. In all other circumstances, charges in Tariff CN 890000 for the movement of empty cars on their own wheels will apply.
 - Note: A loaded Reciprocal Switch movement is not considered a revenue line haul movement.

If the payer of freight information on the waybill is missing, inaccurate or cannot otherwise be determined by the shipment information, the equipment LESSEE identified in the Universal Machine Language Equipment Register (UMLER) will be responsible for all charges. If the LESSEE information in UMLER is missing or inaccurate, the equipment owner identified in UMLER will be responsible for all charges.

2. The provisions of Item 615-Series governing one free diversion or reconsignment of empty freight cars, other than tank cars, will not apply. Rules and charges in Tariff CN 9000 will apply.

ITEM 457.50

CANADIAN NATIONAL RAILWAYS

The provisions of Items 615 and 620 will not apply on privately owned freight cars carrying markings DODX 39810- through 39829, or other depressed center flat cars equipped with permanently applied container or containers or framework as a shield for radioactive materials.

ITEM 458

CP RAIL SYSTEM

The CPRS will pay an allowance of five (5) cents per mile for flat cars specially equipped with bulkheaded ends, a steel "A" frame or steel center beam down the center and chains, cables and clamps providing adjustable tie-downs, or other appurtenances for handling packaged units of lumber and building products.

SECTION 2 EXCEPTION TO APPLICATION AND RULES APPLIES ON CARS OTHER THAN TANK CARS

ITEM 486

CSX TRANSPORTATION, INC.

- 1. The handling of EMPTY cars for account CSXT will be as follows:
 - A. The provisions of Item 615 and 616 WILL NOT apply.
 - B. A Mileage Rate Allowance WILL NOT be made for the empty movement of cars.
 - C. When a car is released from load on CSXT, the empty car will be returned via the reverse of the loaded route to the origin stations of the last loaded movement. If the owner or lessee of the car desires movement via a different route or to a station other than the origin of the last loaded movement, empty billing instructions must be given to CSXT prior to release of the empty car, otherwise, the Diversion Section of Tariff CSXT 8100 Series, or successor publications will apply.
 - D. Empty cars will be handled without charge if the empty movement is immediately preceded by a revenue line-haul movement on CSXT within the previous 180 days; otherwise, the empty movement will be subject to charges in Tariff CSXT 6050 Series, or successor publications, except as follows:
 - In all cases, empty cars moving on their own wheels, will subject to charges in Tariff CSXT 6050 Series, or successor publications that meet at least one of the following criteria:
 - a. New cars or cars that are restenciled with new initials and/or numbers.
 - b. Cars not listed in Umler.
 - c. Cars moving for scrapping or sale.
- Empty cars received in interchange from another railroad that are consigned to shop facilities for cleaning, lining, relining, maintenance, modification or repair, where the interchange and the shop facility is located at the same station, will be subject to the provisions of Tariff CSXT 8100 Series, or successor publications.
- Empty cars that are handled without charge which are consigned to repair facilities for cleaning, lining, relining, maintenance, modification or repair will be subject to the provisions of Tariff CSXT 6050 Series, or successor publications.
- 4. Cars "bad ordered" on CSXT will be moved as directed under the provisions of AAR Circular No. OT-16.

ITEM 487

DAKOTA, MINNESOTA AND EASTERN RAILROAD CORPORATION (DME)

1. Applies only for shipments of Grain, Oil Kernels, Nuts or Seeds, and Field Seeds with STCC Numbers beginning with 01 13, 01 14 and 01 15 as listed in Tariff STCC 6001-Series.

The DME will pay the mileage rate allowances on special car type "LO" as provided in Item 621, subject to a maximum mileage allowance of 18 cents per actual loaded mile.

2. Apples only for shipments of Soybean Meal, STCC 20 923.

The DME will pay the mileage rate allowance on special car type "LO" as provided in Item 621, subject to a maximum mileage allowance of 24 cents per actual loaded mile.

SECTION 2 EXCEPTION TO APPLICATION AND RULES APPLIES ON CARS OTHER THAN TANK CARS

ITEM 492

HIGH POINT, THOMASVILLE AND DENTON RAILROAD COMPANY

The High Point, Thomasville and Denton Railroad Company will pay an allowance of five (5) cents per mile for flat cars specially equipped with bulkheaded ends, a steel "A" frame or steel center beam down the center and chains, cables and clamps providing adjustable tie-downs or other appurtenances for handling packaged units of lumber and building products.

ITEM 495

IOWA NORTHERN RAILWAY COMPANY

The provisions of Item 615-Series or other provisions for the movement or handling of empty freight cars, other than tank cars, without charge from or to Transco facilities at "Oelwein, Iowa or General Electric Railcar facilities at Waterloo, Iowa for cleaning, lining, relining, maintenance, modification, repair or storage, will not apply to such cars moving via this railroad when from or to these facilities unless the empty movement is immediately preceded by or followed by a loaded revenue movement via Iowa Northern Railway Company. In all other circumstances the published tariff charges in IANR Tariff 3000-Series for movements of empty cars on their own wheels from or to these repair or storage facilities shall apply.

ITEM 546 (Cont'd)

EXPLANATION OF NOTES

- Designating symbols (mechanical designations) will be assigned to car owner or lessee by the Executive Director, Rules and Standards, Technical Services, Association of American Railroads, upon written application.
- Mileage allowance named will also apply on cars carrying letters "R" and "S" affixed to the foregoing designating symbols.
- 3. Applicable on cars with inside length of at least 48 feet, 6 inches, but not exceeding 61 feet, 0 inches.
- 4. Applicable on cars with inside length exceeding 61 feet, 0 inches.
- 5. Mileage will be computed as follows:
 - A. Mileage will be computed on the basis of the shortest distance over the routes of the lines named in this item, based on the freight mileage tables published in tariffs lawfully on file from station of origin at which received from connecting line to destination station or station at which delivered to connecting lines.
 - B. When the transportation begins and ends, i.e., when a car is both loaded or unloaded within a switching district, no mileage will be allowed. Mileage between an industry or public track and freight station at station of origin or destination will not be allowed.
 - C. Empty cars will be moved over the NS as provided in Item 615. No allowance will be made for empty movement of such cars.
 - D. Except as otherwise provided above, the rules, allowances and other provisions of Section 2 of this tariff will apply.
- Norfolk Southern Railway Company will pay twenty-two and one-half (22.5) cents per mile on the following covered hoppers:

SAUX 604, 606-609.

CARS:

 Norfolk Southern Railway Company will pay the following mileage allowances on the following "LO" covered hoppers:

EXPLANATION OF REFERENCE MARKS

1. Applies per actual loaded mile only.

ITEM 547

NORFOLK SOUTHERN RAILWAY COMPANY

When it is necessary to move a loaded private car to/from shop or repair facilities located on NS, NS will pay mileage payments not to exceed the amount that would have been earned had the car not required additional rail movements to/from shop or repair facilities, provided that the mileage allowances for the loaded movement are not elsewhere restricted.

ITEM 548

NORFOLK SOUTHERN RAILWAY COMPANY

Where private cars other than tank cars are placed for loading at stations for which approval has not been granted in accordance with Item 605, Paragraphs 1 and 2, they will not be eligible for mileage payments unless specifically authorized before placement.

ITEM 550

SANDERSVILLE RAILROAD COMPANY (SAN)

Inbound hopper car mileage will be used as an offset to outbound loaded mileage (or vice versa) and the SAN will pay no mileage on "LO" hopper cars based on freight mileage table from or to stations on its line.

SECTION 2	SECTION 2
EXCEPTION TO APPLICATION AND RULES APPLIES ON CARS OTHER THAN TANK CARS	EXCEPTION TO APPLICATION AND RULES APPLIES ON CARS OTHER THAN TANK CARS
	ITEM 575
	UNION PACIFIC RAILROAD COMPANY
	 The carriers named herein will pay an allowance of seventeen (17) cents per loaded mile on the following types of cars:
	Bulkhead flat cars with mechanical designation "FB" or "FBS" with inside length of at least 48' 6";
	Flat cars specially equipped with bulkhead ends, a steel "A" frame down the center and chains, cables and clamps providing adjustable tie-downs, for handling packaged units of lumber and building products; Flat cars specially equipped with bulkhead ends, a steel center beam down the center and equipment suitable for handling packaged units of lumber and building products.
	A. Mileage to be computed on basis of the shortest distance over the routes of these carriers based on freight mileage tables published in tariffs lawfully on file from station of origin or station at which received from connecting line to destination station or to station at which delivered to connecting lines.
	B. When the transportation begins and ends, i.e., when a car is both loaded and unloaded, within a switching district, no mileage will be allowed. Mileage between an industry or public track and freight station at station of origin or destination will not be allowed.
	C. Except as otherwise provided in Item 615 Series, cars covered by this item will be moved empty without charge between stations or junction points on the UP. No allowance will be made for mileage of such cars during empty movement.
	ITEM 576
	UNION PACIFIC RAILROAD COMPANY (EXCEPTION TO ITEM 615)
	The provisions of Item 615-series regarding movement of empty cars without charge will not apply for the account of UP. This exception applies to all privately-owned freight cars including, but not limited to, cars carrying reporting marks DODX 39810 through 39829, or other depressed center flat cars equipped with permanently fixed container or containers and framework as a shield against radioactive materials. Movements of empty cars will be subject to the rules and charges provided in the applicable UP tariff(s).

ITEM 595	ITEM 605	
WINSTON SALEM SOUTHBOUND RAILWAY COMPANY	USE OF PRIVATE CARS AND PAYMENT OF MILEAGE	
The Winston Salem Southbound Railway Company will pay an allowance of five (5) cents per mile for flat cars specially equipped with bulkheaded ends, a steel "A" frame or steel center beam down the center and chains, cables and clamps providing adjustable tie-downs or other appurtenances for handling packaged units of lumber and building products.	 Reporting marks will be assigned for use on cars other than tank cars only by the Assistant Vice President, Business Services, Association of American Railroads. As a condition for the assignment and retention of reporting marks, applicants must be subscribers to the AAR Mechanical Interchange Agreement and all cars bearing such reporting marks must be properly registered in the Umler file. 	
	2. Application for use of cars bearing such reporting marks shall state the name of the owner (assignee of reporting marks) and lessee, if leased, and the station or stations and industry or industries at which loads are intended to originate, and the name of the first line haul carrier or carriers. The application will be transmitted by the applicant to the originating line haul carrier(s) for approval. Application for approval for shipper provided cars cannot be denied by the carriers except for reasons of safety, mechanical factors or inadequate storage space.	
	3. After reporting marks are approved, the cars may be used by the owner or lessee for the origination of traffic only at the station or stations on the carrier or carriers that granted application approval. As to use of the cars for the origination of traffic at some other station or stations, or some other carrier or carriers, application must be made by the owner or lessee to the originating carrier.	
	4. After reporting marks have been assigned, they may be used on any cars that meet the requirements of the AAR Mechanical Interchange Rules and which are properly registered in the Umler file.	
	5. The number of cars of any type shall not be increased nor shall destroyed cars be replaced without specific authority granted by the originating line haul carrier(s).	
	6. Mileage allowance must be reported to the car owner (person or company at a single address, to whom the reporting marks are assigned) within one (1) month and ten (10) days from the last day of the month in which it is earned including payment for cars on hand at the end of that month.	
	7. Mileage allowance for the use of cars will be paid only to the person or company, at a single address, to whom the reporting marks are assigned provided cars are properly equipped and marked with the assigned reporting marks and car number and provided further:	
	A. Refrigerator cars of private ownership are handled in conformity with the provisions of Rule 36 (or successive issues) Perishable Protective Tariff PPT 619.

ITEM 605 (Cont'd)

USE OF PRIVATE CARS AND PAYMENT OF MILEAGE

- B. A description of each car is furnished to the Assistant Vice President, Business Services, AAR, as required in the Umler Data Specification Manual at www.Railinc.com, Products & Services for the assignment of application mileage allowances. Such information must be received by the Assistant Vice President not later than 5:00 PM, E.T. on the last day of the month prior to the month in which the cars are placed in service except, submissions requiring data entry by AAR/Railinc staff must be received by the 25th day of the month. When the last day of the month falls on a Saturday, Sunday or a holiday, such information must be received by 5:00 PM on the last working day prior to the last day of the month except submissions requiring data entry by AAR/Railinc staff must be received by the 25th day of the month. Cars registered with a transportation code "S_", "SX", "XA", "XZ", or "YA" are not eligible for mileage allowances and will be assigned a zero rate.
- 8. Reporting marks assigned to private car owners will consist of four letters including the final letter "X".
- Assigned reporting marks must be painted or stenciled on the body of the car. When reporting mileage allowances, carding, placarding or boarding of cars will not be recognized.
- NOTE: Prior to the acceptance of privately owned railcars for loading by customers on Norfolk Southern Railway Company (NS) lines, the railcar owner or controlling entity must submit an OT-5 application request to NS via the Railinc OT-5 registration system** (www.railinc.com). To access the OT-5 registration system a user must be registered through Railinc single sign on (<u>Railinc SSO</u>).
- 11. NOTE: When applications are required, an OT-5 application must be submitted electronically via Railinc's Circular OT-5 Internet system (www.railinc.com).

SECTION 2 RULES AND REGULATIONS APPLIES ON CARS OTHER THAN TANK CARS

ITEM 606

DEDUCTIONS AND MILEAGE CLAIM HANDLING PROCEDURES

- 1. Deductions by Railroads to Private Car Owners:
 - A. Mileage allowed in error, by a railroad, including but not limited to, mileage allowed at incorrect rates for any reason, may be deducted from the car owner's account within twenty-four (24) months from the last day of the month for which the mileage was reported as earned, but not later. A railroad may render an invoice for mileage allowed in error at any time within twenty-four (24) months from the last day of the month for which the month for which the mileage was reported as earned, but not later. A railroad may render an invoice for mileage allowed in error at any time within twenty-four (24) months from the last day of the month for which the mileage was reported as earned. Except as provided for in paragraph 3, an owner-lessor of a private car must remit within eight (8) months after the invoice is presented the entire amount of any invoice issued to it.
 - B. Deductions for amounts of \$25.00 or less shall not be taken after the expiration of two (2) months and ten (10) days from the last day of the month the mileage was earned.
- 2. Claims Issued by Private Car Owners to Railroads:
 - A. A private car owner must, within twenty-four (24) months from the last day of the month the completed cycle was reported, present any claim for mileage allowance discrepancies, including incorrect rates to the applicable rail carrier in the prescribed AAR format, as published AAR Circular No. OT-3 Series at www.Railinc.com Reference Files. Claims not presented in required format will not be processed. The railroad receiving the claim must within four (4) months from the date on which the claim was presented allow it in whole or in part, or decline it. The private car owner may reissue its claim, if applicable, within four (4) months from the last day of the four (4) month period allowed the railroad which handled the claim prior to reissuance. The railroad receiving the reissued claim must within four (4) months from the date on which the reissued claim was presented allow it in whole or in part or decline it. If the railroad fails to handle the original or reissued claim within the prescribed time limits, it will constitute a valid claim as last presented and must be honored by the railroad to which presented. Claims for amounts of \$25.00 per car per cycle or less shall not be issued. The \$25.00 limit is not applicable where no miles were reported for the railroad cycle.
- 3. Claims by Owners-Lessors:
 - A. If a railroad takes a deduction against or issues an invoice to an owner-lessor for mileage allowed in error, including, but not limited to, mileage allowed at incorrect rates for any reason, but the erroneous allowance payment is not recoverable by the owner-lessor as defined below, the owner-lessor may present a claim for the recovery of the amounts deducted by the railroad or the cancellation of an unpaid invoice within two (2) years of receiving notice of the railroad's deduction or invoice.

Original Page 40

SECTION 2 RULES AND REGULATIONS APPLIES ON CARS OTHER THAN TANK CARS

ITEM 606

DEDUCTIONS AND MILEAGE CLAIM HANDLING PROCEDURES

- A. (Cont'd) For application of this tariff provision, an ownerlessor may claim that an erroneous mileage payment is "not recoverable" only when (a) the erroneous mileage payment was actually paid or credited by the owner-lessor to a lessee (except those lessees whose primary business is the leasing of cars to entities other than those within a lessee's corporate family and who ship only incidentally, irrespective of whether the lessee subsequently paid or credited the mileage allowance payment to a sublessee; (b) the erroneous allowance payment cannot be recovered from the lessee because the lessee has declared bankruptcy or sought reorganization or is no longer a lessee of the owner-lessor; (c) the owner-lessor exercised timely efforts to recover the erroneous allowance payment beginning within ninety (90) days of receiving notice of the railroad's deduction or invoice, and (d) the owner-lessor undertook diligent collection efforts to recover the erroneous allowance payments until eight (8) months from the date of such notice or invoice or until the earlier date of initiation of bankruptcy/reorganization proceedings, including making demands for payment and taking deductions against lessee's accounts. Such a claim must be accompanied by a certificate signed by an officer or other person specifically authorized to sign the certificate of the owner-lessor stating how the claim satisfied each of the requirements set forth above, together with documents reflecting the owner-lessor's collection efforts. If, using reasonable efforts, the railroad is unable to determine whether the lessee's primary business is the leasing of cars to entities other than those in the lessee's corporate family, it shall consult with the owner-lessor, which shall provide the railroad with any evidence of the lessee's shipping activities which may be available to the ownerlessor using reasonable efforts. The owner-lessor shall provide the railroad with an assignment of the ownerlessor's claims and rights to collect the amount not recovered upon payment of the claim or cancellation of the invoice by the railroad.
- B. If the railroad had deducted the amount of an erroneous allowance payment from an owner-lessor, the railroad must remit to the owner-lessor the amount deducted within four (4) months of its receipt of a properly presented, valid claim from the owner-lessor.

SECTION 2 RULES AND REGULATIONS APPLIES ON CARS OTHER THAN TANK CARS

ITEM 610

COMPUTATION OF MILEAGE

- Mileage will be computed on the basis of actual distance based on freight mileage tables of the individual lines parties to this tariff, lawfully on file, via the route of movement from station of origin or station at which received from connecting line to destination station or to station at which delivered to connecting line without deduction of mileage through switching district. (See Note).
- When the transportation begins and ends, i.e., when a car is both loaded and unloaded, within a switching district, no mileage will be allowed. Mileage between an industry or public track and freight station at station of origin or destination will not be allowed.

EXPLANATION OF NOTES

 The intent of the clause "without deduction of mileage through switching districts" is to insure mileage being allowed for the full distance the car moves, via route of movement from freight station of origin to freight station to which destined. When there are two or more freight stations on a road within a switching district, mileage will be paid to or from the station within such district at which the car is actually loaded or unloaded or at which it is received from or delivered to connecting line.

ITEM 615

HANDLING OF EMPTY FREIGHT CARS OTHER THAN TANK CARS (SEE EXCEPTIONS 1,2 AND 3)

PART A

APPLIES ONLY TO REFRIGERATOR CARS PROVIDED BY RAILROADS

- Except as provided in Part A. 2. and except as otherwise provided in tariffs of individual carriers lawfully on file, refrigerator cars will be moved empty without charge either to the station or junction point where received under load or under instructions from car owners, to other stations, or for delivery to connecting lines.
- 2. A new car or a newly acquired car moving prior to its first loaded move in commercial service and a car moving for sale or scrap will be moved subject to applicable rates.

PART B

APPLIES ON ALL CARS BEARING OTHER THAN RAILROAD REPORTING MARKS, EXCEPT REFRIGERATOR CARS PROVIDED BY RAILROADS AND SPECIAL CAR TYPE "LO" (SEE NOTES 1 AND 2)

1. When a car is released from load, the owner or lessee must issue instructions for the disposition of the empty car to the agent at point of unloading either direct or through consignee or via EDI. Empty instructions may also be included with the original loaded shipping instructions if transmitted via EDI. If the owner or lessee fails to have instructions in the hands of the railroad agent having jurisdiction at point of unloading prior to the time the car is released from load to forward or hold the car, the agent is authorized to forward the empty car to the origin point of the last load via reverse of the loaded route.

ITEM 615 (Cont'd)

HANDLING OF EMPTY FREIGHT CARS OTHER THAN TANK CARS (SEE EXCEPTIONS 1, 2 AND 3)

PART B

APPLIES ON ALL CARS BEARING OTHER THAN RAILROAD REPORTING MARKS, EXCEPT REFRIGERATOR CARS PROVIDED BY RAILROADS AND SPECIAL CAR TYPE "LO" (SEE NOTES 1 AND 2)

- 2. Empty cars will be handled as follows:
 - A. Except as otherwise provided in this tariff, cars covered by this section will be moved empty without charge between stations or junction points upon receipt of instructions from the car owner or lessee, confirmed in writing. Such instructions must include the specific facility to which such car is consigned or the name and address of the company which controls the car.
 - B. A new car or a newly acquired car moving prior to its first loaded move in commercial service and a car moving for sale or scrap will be moved subject to applicable rates.

EXPLANATION OF NOTES IN PART B

- Note 1. A car loaded with railroad company material moving on non-revenue billing, will be considered as having been loaded in commercial service on which the railroads derived line-haul revenue.
- Note 2. When a car that has moved in commercial service bearing railroad reporting marks is restenciled with private reporting marks, the newly marked car is considered to be a new or newly acquired car and the provisions of Part B. 2. B. will apply.

PART C

APPLIES ONLY TO SPECIAL CARS TYPE "LO" CARS BEARING OTHER THAN RAILROAD REPORTING MARKS (SEE NOTES 1 THROUGH 5 AND EXCEPTION 1)

- 1. When a car is released from load, the owner or lessee must issue instructions for the disposition of the empty car to the agent at point of unloading either direct or through consignee or via EDI. Empty instructions may also be included with the original loaded shipping instructions if transmitted via EDI. If the owner or lessee fails to have instructions in the hands of the railroad agent having jurisdiction at point of unloading prior to the time the car is released from load to forward or hold the car, the agent is authorized to forward the empty car to the origin point of the last load via reverse of the loaded route.
- 2. Empty cars will be handled as follows:
 - A. An empty car returned to origin point of the last load via reverse of the loaded movement will be handled without charge.

(Continued in next column)

SECTION 2 RULES AND REGULATIONS APPLIES ON CARS OTHER THAN TANK CARS

ITEM 615 (Cont'd)

HANDLING OF EMPTY FREIGHT CARS OTHER THAN TANK CARS (SEE EXCEPTIONS 1, 2 AND 3)

PART C

APPLIES ONLY TO SPECIAL CARS TYPE "LO" CARS BEARING OTHER THAN RAILROAD REPORTING MARKS (SEE NOTES 1 THROUGH 5 AND EXCEPTION 1)

- 2. Empty cars will be handled as follows: (Cont'd)
 - B. Upon receipt of instructions from the owner or lessee, confirmed in writing, showing reference to the preceding loaded move, an empty car, after having been loaded in commercial service on which the railroads derived line-haul revenue immediately preceding the empty movement, will be moved without charge to the destination shown on instructions. Such instructions must include the specific facility to which such car is consigned or the name and address of the company which controls the car. Only one diversion or reconsignment of such empty car will be permitted without charge, providing it occurs prior to the car's arrival at the initially billed destination and the handling carrier does not incur backhaul mileage.
 - C. An empty car, moving subsequent to its first loaded move in commercial service on which the railroads derived linehaul revenue, will be moved without charge to and from bona-fide shop facilities for non-discretionary cleaning, lining, relining, maintenance, modification, or repair upon receipt of instructions confirmed in writing, showing the shop facility, destination and full routing and specific reason for such movement. The movement of an empty car to any of these facilities located on the premises of a shipping facility other than a bona-fide shop facility for any of the purposes outlined above will be subject to the charges specified in Paragraph E when such empty movement is not immediately preceded by a loaded movement.
 - D. A new car or a newly acquired car moving prior to its first loaded move in commercial service and a car moving for sale or scrap will be moved subject to applicable rates.
 - E. Except as provided in Parts C. 2. A., B., C. and D. of this item, an empty car, moving subsequent to its first loaded move in commercial service on which the railroads derived line-haul revenue, but the immediately preceding movement was in empty line-haul service, will be moved upon surrender of written instructions to the railroad agent having jurisdiction at the point where the preceding empty movement terminated, showing destination and route at a rate of 32 cents per actual mile (See Exceptions 1 and 4), as defined in Item 610 (see Note 3) with a minimum of 100 miles for each line-haul carrier handling the car, or switching charges where applicable (see Note 4), such charges will be assessed against and must be paid by the person, company or carrier requesting the movement who must not be designated on written instructions. Empty cars being moved for railroad convenience or due to railroad error will not be subject to the foregoing charges.

MILEAGE RATE ALLOWANCE ON SPECIAL CAR TYPE "LO"	EXPLANATION OF NOTES
Mileage Rate Allowance in Central Action of private and the second sec	 All car ages and values submitted are subject to verification by the AAR, and audit by the AAR or the owner's independent public accountant upon reasonable request by the AAR. If the car owner elects to have the audit performed by its independent fashion in the manner prescribed by the AAR, will be performed at the car owner's expense and must be duly certified by the car owner's auditor as representing the true value of all cars included in such audit. Depreciation will be applied annually from the original date of construction or date rebuilt. Failure of the car owner to furnish the required car valuation data to the AAR Umier file, to arrange for the requested audit, or to correct errors determined as a result of such audit, will result in such car(s) being assigned to the lowest applicable mileage allowance rate group. For cars built or rebuilt subsequent to December 31, 1977, all values reported to the AAR Umier file must be stated in equivalent U.S. dollars based upon the applicable exchange rate at the time such cars were built or rebuilt. Subsequent capitalized additions and betterments reported to Umler must also be stated in equivalent U.S. dollars at the time such improvements were made. (1) Into-service transportation costs are those freight charges associated with the movement of a car that is ready for its first load to the location of the car's original installation into service. Other transportation charges incurred during construction (e.g., to a facility which installs the original lining, etc.) may be included in the ledger value provided that the cost is capitalized. A capital expenditure is an expenditure intended to benefit future periods in contrast to a revenue expenditure/current expense which benefits a current period. It is an addition to a capital asset and is initially reflected on the balance sheet. A capital expenditure normally is subject to depreciation in future years. A. An addition or betterment has the effect o

SECTION 2 RULES AND REGULATIONS APPLIES ON CARS OTHER THAN TANK CARS

ITEM 630

REFRIGERATOR CAR TYPE CLASS "R"

Definition and Designating Symbols are as follows:

"RB" - Bunkerless refrigerator cars with or without ventilating devices and with or without device for attaching portable heaters. Constructed with insulation in side ends, floor and roof to meet maximum UA factor requirement of 250 BTU/F/ Hour for 50 foot car and 3000 BTU/F/Hour for 60 foot cars ordered new after March 1, 1984. (See Note 1)

"RBL"- Car similar in construction to an "RB" type car, but equipped in addition with adjustable loading or stowing device. (See Note 2)

"RP"-Mechanical Refrigerator car equipped with or without means of ventilation and provided with apparatus for furnishing protection against heat and/or cold. Apparatus operated by power other than from the car axle.

"RPL"-Mechanical Refrigerator. Similar to "RP" but equipped in addition with adjustable loading or stowing devices.

"RC" – Refrigerator car similar to an "RB" car using a cryogen to produce temperatures to transport frozen commodities.

"RC"-A cryogenic powered co2 refrigerator car. (Applicable only for account of UP).

"RC"-Refrigerator car similar to an "RB" car using a cryogen to produce temperatures to transport frozen commodities. (Applicable only for account of BNSF, CN, ,GNBC, KCS, MRL[A] and UP.

EXPLANATION OF NOTE

- Cars built or rebuilt prior to March 1, 1984, must have been constructed with a minimum of 3 in. of insulation in the sides and ends and 3 ½ in. in floor and roof based on the insulation requirements given in AAR Standard S-2010 or a thickness reduced in proportion to the thermal conductivity of the insulation.
- Cars equipped with interior side rails only, built new, rebuilt or classified on and after January 1, 1966, in order to qualify for the "RBL" designation, shall have a minimum of four (4) useable side rails on each wall of car each extending from doorway to approximately four (4) feet from end of car.

SECTION 2 RULES AND REGULATIONS APPLIES ON CARS OTHER THAN TANK CARS

ITEM 640

GONDOLA CAR TYPE CLASS "G"

Definition and Designating Symbols are as follows:

"GB"-Open Top Car, having fixed sides, fixed or drop ends and solid bottom.

"GS"-Open Top Car having fixed sides and ends and drop bottom, consisting of doors hinged at center sills to dump outside of rails.

"GT"-Open Top Car, having high fixed sides and ends and solid bottom, suitable for unloading on dumping machines only.

"GW"-Open Top Well-Hole Car for transportation of special commodities. A solid bottom car, with fixed sides and ends, having one or more openings or depressions provided in floor, permitting the lading to be lowered in order to obtain overhead clearance.

EXPLANATION OF NOTES

- Where cars are equipped with permanent constant tension devices, permanent tie-down chains, permanent racks for stowing parts, or are specially modified or equipped to provide for loading of a particular commodity, the letter "S" should be affixed to the application designating letters. Such special equipment must be reported in the AAR Umler file per the Umler Data Specification Manual at <u>www.Railinc.com</u>, <u>Products & Services</u>.
- If any of the gondola cars are equipped with a roof or are covered for protection of contents the letter "R" should be affixed to the regular symbol to designate its special class of service.

SECTION 2 RULES AND REGULATIONS APPLIES ON CARS OTHER THAN TANK CARS

ITEM 645

HOPPER CAR TYPE CLASS "H"

Definition and Designation Symbols are as follows:

"HK"-Open top self-clearing car, having fixed sides and ends and bottom consisting of two or more divided hoppers dumping outside and/or inside of rails.

"HM"-Open top self-clearing car, having fixed sides and ends and bottom consisting of two divided hoppers with doors hinged crosswise of car and dumping between rails.

"HT"-Open top self-clearing car, having fixed sides, ends and bottom consisting of three or more divided hoppers with doors hinged crosswise of car and dumping between rails.

"HTA"-Open top self-clearing car, having fixed sides and ends and bottom consisting of three or more divided hoppers with doors hinged lengthwise of car and dumping between rails.

EXPLANATION OF NOTES

 Where cars are equipped with permanent constant tension devices, permanent tie-down chains, permanent racks for stowing parts, or are specially modified or equipped to provide for loading of a particular commodity, the letter "S" should be affixed to the application designating letters. Such special equipment must be reported in the AAR Umler file per the Umler Data Specification Manual at <u>www.Railinc.com, Products & Services</u>.

 If any of these hopper cars are equipped with a roof or are covered for protection of contents the letter "R" should be affixed to the regular symbol to designate its special class of service.

SECTION 2 RULES AND REGULATIONS APPLIES ON CARS OTHER THAN TANK CARS

ITEM 650

SPECIAL CAR TYPE CLASS "L"

Definition and Designation Symbols are as follows:

"LF"-Flat car equipped to handle one or more demountable containers for the transportation of commodities not under refrigeration. Note-Not applicable to flat cars designed to handle containers in TOFC/COFC service or containers handling set-up vehicles.

"LG"-Gondola car equipped to handle one or more demountable containers for the transportation of commodities not under refrigeration.

"LM"-A car equipped with one or more permanently enclosed tanks or containers, provided with one or more openings for loading and equipped for pneumatic or gravity unloading. Car is suitable for handling certain dry powdered or granular commodities, also low viscosity, non-dangerous liquid commodities.

"LO"-A permanently enclosed car, other than a box car, regardless of exterior or interior shape, for handling bulk commodities, with or without insulation and provided with openings for loading through top or sides with weather tight covers or doors. Car may be provided with one or more bottom openings for unloading, with tight fitting covers, doors, valves, or tight fitting slide or gate openings in top or sides and may have one or more compartments. Mechanical or other means may be provided within car to expedite loading or unloading.

"LP"-Open top car having solid bottom and fixed ends equipped with sloping floor or longitudinal floor risers or sidestakes for the handling of pulpwood, and not suitable for general commodity loading.

"LS"-A car of special construction having two separable interlocking units which form a car body. Units may be separated and load interposed between and locked in place to form a complete transportation unit.

"LU"-An enclosed car with roof, having a special metal beam of heavy design at top of each side to support a series of retractable overhead side doors and their appurtenances, or other types of doors, running substantially the length of car, which beams also support the roof details. Car may be equipped with special loading devices or racks for handling various commodities.

Mileage will not be paid on movements of cars, the marked capacities and assigned reporting marks of which are not properly registered in the Umler file.

ITEM 1225

THE ACQUIREMENT OR OWNERSHIP OF A CAR

The acquirement of ownership of a car referred to will be identified by the assigned reporting marks painted or stenciled on the body of the car as evidence of new acquirement or ownership. The carding, placarding or boarding of cars will not be recognized as evidencing their acquirement or ownership.

ITEM 1230

EMPTY CARS AS COMMERCIAL SHIPMENTS

Mileage will not be paid on movement of empty cars delivered to carriers for transportation as commercial shipments on which transportation charges are assessed.

ITEM 1235

NEW CARS

Mileage will not be paid on empty movements of new or newly acquired cars on order of owner. Transportation charges will be assessed for all empty movement of new or newly acquired cars from point at which manufactured or newly acquired to the point at which cars are first loaded, or to a home point of the owner or of the party who had newly acquired the car, as shown by a change in the permanent reporting marks and on new cars not loaded, but returned empty from home point or point to which billed for loading to original point of manufacture.

ITEM 1240

LEASED CARS

Mileage will be paid to the car owner on cars leased to, or rented outright by a railroad until the cars have been re-marked with the name and the proper reporting marks of the lessee. SECTION 3 APPLIES ONLY ON PRIVATE CARS (APPLICABLE ONLY FOR ACCOUNT OF CSXT)

PART 1 GENERAL RULES

ITEM 1245

REPORTING MARKS

Reporting marks will be assigned for use on all car types only be the Assistant Vice President, Business Services, Association of American Railroads upon written application. Application for reporting marks shall state the name of owners and lessee, if leased, and for cars other than tank cars, the station or stations at which loads are intended to originate and the name of the first line haul carrier or carriers. The latter will be notified and the Assistant Vice President will approve or disapprove the application in accordance with the directions of such carrier or carriers; provided, however, that applicants are subscribers to the AAR Mechanical Interchange Agreement.

After reporting marks are approved on cars other than tank cars, the cars may be used by the owner or lessee for the origination of traffic only at station or stations on the carrier or carriers that granted such approval to the Assistant Vice President. If the owner or lessee desires to use the cars for the origination of traffic at some other station or stations or on some other carrier or carriers, application for permission must be made by the owner or lessee to the Assistant Vice President who will approve or disapprove the application in accordance with the directions of such carrier or carriers.

After reporting marks have been assigned, they may be used only on those cars on which specific approval has been given by the Assistant Vice President.

The number of cars of any type (except tank cars) shall not be increased nor shall destroyed cars be replaced without specific authority from the Assistant Vice President, who shall grant or withhold such authority upon instructions of the first line haul carrier or carriers.

ITEM 1250

DESIGNATING SYMBOLS

Designating Symbols (Mechanical Designations) will be assigned to car owner or lessee by the Executive Director, Rules and Standards, Technical Services, AAR, upon written application.

PART 2 EQUALIZATION OF DISTANCE ON TANK CARS OF PRIVATE OWNERSHIP

ITEM 1300

APPLICATION

The regulations authorized in Part 2 will govern equalization of distance on all miles except as noted, on tank cars of private ownership.

ISSUED: February 19, 2015

EFFECTIVE: March 1, 2015

ISSUED BY: Railinc, Agent, Cary, NC 27513

SECTION 3 APPLIES ONLY ON PRIVATE CARS (APPLICABLE ONLY FOR ACCOUNT OF CSXT)

PART 2 EQUALIZATION OF DISTANCE ON TANK CARS OF PRIVATE OWNERSHIP

ITEM 1305

AGGREGATE EMPTY DISTANCE VERSUS AGGREGATE LOADED DISTANCE

- A. On CSXT, should the aggregate empty miles operated by the cars of any of the reporting marks assigned to any one person or company exceed the aggregate loaded miles operated by the cars of those reporting marks, at the end of a calendar year, by more than five percent (5%), such excess empty miles must be paid to CSXT by the person or company to whom those reporting marks are assigned at a rate of 53.8 cents per mile, without minimum, upon receipt of advice from CSXT at the end of the period in question that such an amount is due and payable.
- B. Cars not completely unloaded, and where the remainder of the lading is returned from destination to the original shipping points, will not be regarded as loaded cars for purposes of distance equalization.

ITEM 1310

CARS OF DIFFERENT OWNERS TO BE KEPT IN SEPARATE ACCOUNTS

CSXT will maintain separate and distinct equalization accounts by car owner for private tank cars.

ITEM 1315

ERROR IN REPORTING

Loaded or empty mileage caused by error of the reporting railway or of another railway, will not be credited or charged in the equalization account of the reporting railway, and the loaded or empty distance which would have been made by the car had there been no error, shall be credited to, or charged in the equalization accounts of the railway or railways via which the car should have moved, provided claims for such adjustment are made within six months from the last day of the month in which the error occurred.

ITEM 1320

CHANGE OF OWNERSHIP

When a private tank car company or owner discontinues business or disposes of tank car equipment, any excess empty distance balance which has accrued to date of such action, on the tank cars bearing the reporting marks of such company of owner, shall be subject to bill as of that date, unless the new owner who acquires the tank car equipment agrees to assume all of the obligations of the former owner under this arrangement, in which event the loaded or empty distance balance existing at the time of such acquirement shall be transferred to the equalization account of the new owner. SECTION 3 APPLIES ONLY ON PRIVATE CARS (APPLICABLE ONLY FOR ACCOUNT OF CSXT)

PART 3 DISTANCE ALLOWANCE RATES ON TANK CARS OF PRIVATE OWNERSHIP

ITEM 1400

APPLICATION

The regulations authorized in Part 3 will govern the payment of distance rate allowance on tank cars of private ownership for loaded miles only, without exception.

ITEM 1405

MILEAGE ALLOWANCE RATES

Mileage allowance for use of tank cars of private ownership will be paid only to the person or company to whom the reporting marks are assigned, not to the lessee, in accordance with the following: International Traffic

- (a) A mileage allowance rate of 59.4 cents per loaded mile will be paid on tank cars of private ownership provided such cars fulfill requirements of Item 1220 of this tariff and are registered in the Umler file, as specified in Item 195 Series, Mileage Tariff RIC 6007 Series, under original fair market value of \$18,001 and over.
- (b) A distance allowance rate of 13.9 cents per loaded mile will be paid on tank cars of private ownership that do not meet the provisions of paragraph 1. (a).

Canadian Traffic

- (a) A distance allowance rate of 59.4 cents per loaded mile (EXCEPTIONS 1 and 2 below) will be paid on Canadian built cars of private ownership, also U.S. built cars of private ownership, assigned to service solely within Canada and sales tax and duty have been paid, provided such cars fulfill requirements of Item 1220 of this tariff and are registered in the Umler file, as specified in Item 1195 Series, Mileage Tariff RIC 6007 Series, under original fair market value of \$18,001 and over.
- (b) When US built cars of private ownership fulfill the requirements of Item 1220 of this tariff, are used for a temporary period in domestic service in Canada, a distance allowance of 59.4 cents per loaded mile will be paid on cars registered in the Umler file, as specified in Item 195 Series, Mileage Tariff RIC 6007 Series, under fair market value of \$18,001 and over.
- (c) A distance allowance rate of 13.9 cents per loaded mile will be paid on tank cars of private ownership provided such cars fulfill requirements of Item 1220 of this tariff and do not meet the provisions of paragraph 2 (a) and/or 2(b).

EXCEPTIONS

1. On Rapeseed Oil-Canola, moving at rates published in Tariff CP 4611-Series, a distance allowance rate of 55.7 cents per loaded mile be paid on tank cars having a capacity exceeding 10,001 imperial gallons, and distance allowance rate of 11.3 cents (Note 12, Item 6000) per loaded mile will be paid on tank cars having a capacity not exceeding 10,000 imperial gallons.

2. On Rapeseed Oil-Canola, linseed oil, and sunflower seed oil, moving at rates published in Tariff CP 4310-Series, a distance allowance of 56.5 cents per loaded mile will be paid on tank cars having a capacity exceeding 10,001 imperial gallons. A distance allowance of 11.3 cents per loaded mile will be paid on tank cars having a capacity not exceeding 10,000 imperial gallons.

PART 5 DISTANCE ALLOWANCE RATES ON COVERED HOPPER CARS ("LO") OF PRIVATE OWNERSHIP

ITEM 1610

ASSIGNMENT OF OWNED OR LEASED CARS TO VALUE GROUPS

Assignment of owned or leased cars to value groups will be determined by the original cost as represented to the original buyer by the manufacturer's invoice price at the time of original installation into service. In the case of a manufacturer-lessor, the fair market value or the value which was certified, or would have been certified, for investment tax credit purposes shall be substituted therefor. In either of the above cases, initial intoservice transportation costs capitalized original lining costs, capitalized additions and capitalized betterments shall be added to the value, if applicable, and if not already included in the original cost or original fair market value figures. Values other than invoice price shall be identified in accordance with the current AAR Umler . format at the time cars are submitted to the Assistant Vice President, Business Services Division, AAR, for the registration in the Umler file. All car ages and values submitted are subject to verification by the AAR, and audit by the AAR or the owner's independent public account upon reasonable request by the AAR. If the car owner elects to have the audit performed by its independent public accountant: such audit must be performed in a timely fashion in the manner prescribed by the AAR, will be performed at the car owner's expense, and must be duly certified by the car owner's auditor as representing the true values of all cars included in such audit. Depreciation will be applied annually from the original date of construction. Failure of the car owner to furnish the required car valuation date to the AAR Umler file, to arrange for the requested audit, or to correct errors determined as a result of such audit, will result in such car(s) being assigned to the lowest applicable mileage allowance rate group.
