**SECTION 1
RULES AND REGULATIONS
APPLIES ONLY ON TANK CARS**

ITEM 180**PAYMENT OF MILEAGE**

1. Upon written application reporting marks will be assigned to car owner or lessee by the Assistant Vice President, Business Services, Association of American Railroads, provided applicants are subscribers to the AAR Mechanical Interchange Agreement. Applications for reporting marks shall state the owner and lessee for cars under lease. Contact information is required in FindUs.Rail (www.Railinc.com).
2. Mileage allowance must be reported to the car owner (person or company at a single address, to whom the reporting marks are assigned) within one (1) month and ten (10) days from the last day of the month in which it is earned including payment for cars on hand at the end of that month.
3. Mileage allowance for the use of tank cars will be paid only to the person or company at a single address, to whom the reporting marks are assigned provided cars are properly equipped and marked with the assigned reporting marks and car number, and providing further that:
 - A. A description of each car is furnished to the Assistant Vice President, Business Services, AAR, as required in the Umler Data Specification Manual at www.Railinc.com, [Products & Services](#) for the assignment of applicable mileage allowances. Such information received by the Assistant Vice President by the last working day of the month except, data transfers requiring data entry by AAR/Railinc staff must be received by the 25th day of the month, will be effective the first day of the subsequent month. Cars registered with transportation code "S", "SX", "XA", "XZ" or "YA" are not eligible for mileage allowances and will be assigned a zero rate.
4. Reporting marks assigned to private car owners shall consist of four letters including the final letter "X".
5. Assigned reporting marks must be painted or stenciled on the body of the car. When reporting mileage allowances, the carding, placarding, or boarding of cars will not be recognized.

ITEM 182**DEDUCTIONS AND MILEAGE CLAIM HANDLING PROCEDURES**

1. Deductions By Railroads To Private Car Owners
 - A. Mileage allowed in error, by a railroad, including, but not limited to mileage allowed at incorrect rates for any reason, may be deducted from the car owner's account within twenty-four (24) months from the last day of the month for which the mileage was reported as earned, but not later. A railroad may tender an invoice for mileage allowed in error at any time within twenty-four (24) months from the last day of the month for which the mileage was reported as earned. Except as provided in paragraph 3, an owner-lessee of a private car must remit within eight (8) months after the invoice is presented the entire amount of any invoice issued to it.

APPLIES ONLY ON TANK CARS**

ITEM 182 (Cont'd)**DEDUCTIONS AND MILEAGE CLAIM HANDLING PROCEDURES**

- B. Deductions for amounts of \$25.00 or less shall not be taken after the expiration of two (2) months and ten (10) days from the last day of the month the mileage was earned.
2. Claims Issued By Private Car Owners To Railroads
 - A. A private car owner must, within twenty-four (24) months from the last day of the month the completed cycle was reported, present any claim for mileage allowance discrepancies, including incorrect rates or omissions, to the applicable rail carrier in the prescribed AAR format, as published in AAR Circular No. OT-3 Series at www.Railinc.com, [Reference Files](#). Claims not presented in the required format will not be processed. The railroad receiving the claim must within the four (4) months from the date on which the claim was presented allow it in whole or in part, or decline it. The private car owner may reissue its claim, if applicable within four (4) months from the last day of the four (4) months' period allowed the railroad which handled the claim prior to reissuance. The railroad receiving the reissue claim must within four (4) months from the date of which the reissued claim was presented allow it in whole or in part or decline it. If the railroad fails to handle the original or reissued claim within the prescribed time limits, it will constitute a valid claim as last presented and must be honored by the railroad to which presented. Claim for amounts of \$25.00 per car per cycle or less shall not be issued. The \$25.00 limit is not applicable where no miles were reported for the railroad cycle.
3. Claims by Owners-Lessors
 - A. If a railroad takes a deduction against or issues an invoice to an owner-lessee for mileage allowed in error, including, but not limited to, mileage allowed at incorrect rates for any reason, but the erroneous allowance payment is not recoverable by the owner-lessee as defined below, the owner-lessee may present a claim for the recovery of the amounts deducted by the railroad or the cancellation of an unpaid invoice within two (2) years of receiving notice of the railroad's deduction or invoice. For application of this tariff provision, an owner-lessee may claim that an erroneous mileage payment is "not recoverable" only when (a) the erroneous mileage payment was actually paid or credited by the owner-lessee to a lessee (except those lessees whose primary business is the leasing of cars to entities other than those within a lessee's corporate family and who ship only incidentally) irrespective of whether the lessee subsequently paid or credited the mileage allowance payment to a sublessee; (b) the erroneous allowance payment cannot be recovered from the lessee because the lessee has declared bankruptcy or sought reorganization or is no longer a lessee of the owner-lessee; (c) the owner-lessee exercised timely efforts to recover the erroneous allowance payment beginning within ninety (90) days of receiving notice of the railroad's deduction or invoice;

<p>ITEM 182 (Cont'd)</p> <p>DEDUCTIONS AND MILEAGE CLAIM HANDLING PROCEDURES</p> <p>3. Claims by Owners-Lessors</p> <p>A. (Cont'd) and (d) the owner-lessor undertook diligent collection efforts to recover the erroneous allowance payments until eight (8) months from the date of such notice or invoice (or until the earlier date of initiation of bankruptcy/reorganization proceedings), including making demands for payment and taking deductions against lessees' accounts. Such a claim must be accompanied by a certificate assigned by an officer or other person specifically authorized to sign the certificate of the owner-lessor stating how the claim satisfied each of the requirements set forth above, together with documents reflecting the owner-lessor's collection efforts. If, using reasonable efforts, the railroad is unable to determine whether the lessee's primary business is the leasing of cars to entities other than those in the lessee's corporate family, it shall consult with the owner-lessor, which shall provide the railroad with any evidence of the lessee's shipping activities which may be available to the owner-lessor using reasonable efforts. The owner-lessor shall provide the railroad with an assignment of the owner-lessor's claims and rights to collect the amount not recovered upon payment of the claim of cancellation of the invoice by the railroad.</p> <p>B. If the railroad had deducted the amount of an erroneous allowance payment from an owner-lessor, the railroad must remit to the owner-lessor the amount deducted within four (4) months of its receipt of a properly presented, valid claim from the owner-lessor.</p>	<p>ITEM 185 (Cont'd)</p> <p>COMPUTATION OF MILEAGE (See Exceptions 1 through 6)</p> <p>EXPLANATION OF NOTES</p> <p>1. The intent of the clause "without deduction of mileage through switching districts" is to insure mileage being allowed for the full distance the car moves, via route of movement from freight station of origin to freight station to which destined. When there are two or more freight stations on a road within a switching district, mileage will be paid to or from the station within such district at which the car is actually loaded or unloaded or at which it is received from or delivered to connecting line.</p> <p>EXCEPTIONS</p> <p>1. In computing distances between stations on the UP on the one hand and stations on the KCS on the other hand, via the New Orleans Gateway, deduct 11.5 miles from the actual distance to and from New Orleans via the UP and 5.4 miles from the actual distance to and from New Orleans via the KCS.</p> <p>2. Mileage will be allowed on movements having origin and destinations at stations or districts within the Chicago Switching District, provided the movements originate at or are destined to industries having private sidings.</p> <p>3. In computing distances between stations on the UP on the one hand and stations on the IC on the other hand via the New Orleans Gateway, deduct 11.5 miles from the actual distance to and from New Orleans, LA via the UP and 5.1 miles from the actual distance to and from New Orleans via the IC.</p> <p>4. In computing distances from, to or via KCS on traffic routed via New Orleans, LA, interchanged at Shrewsbury, LA, deduct 5.4 miles from the actual distance to and from New Orleans, LA on the KCS.</p> <p>5. When for account of the KCS, mileages will be computed on basis of the shortest distance over the route of these lines determined by freight mileage tables lawfully on file, in lieu of actual distance as provided in Paragraph 1 of this item.</p> <p>6. All traffic between West Lake, LA on KCS and interchange with UP will be made at De Quincy, LA, in lieu of Lake Charles, LA for carriers convenience and to facilitate industries located at West Lake, LA. KCS will not pay mileage allowance between West Lake, LA and De Quincy, LA, when cars are moving under provisions of UP reroute orders.</p>
<p>ITEM 185</p> <p>COMPUTATION OF MILEAGE (See Exceptions 1 through 6)</p> <p>1. Mileage will be computed on the basis of actual distance based on freight mileage tables of the individual lines parties to this tariff, lawfully on file, via the route of movement from station of origin or station at which received from connecting line to destination station or to stations at which delivered to connecting line without deduction of mileage through switching districts (see Note 1).</p> <p>2. When the transportation begins and ends, i.e., when a car is both loaded and unloaded, within a switching district, no mileage will be allowed. Mileage between an industry or public track and freight station at station of origin or destination will not be allowed.</p> <p>(Continued in next column)</p>

<p>ITEM 187</p> <p>EQUALIZATION OF MILEAGE ON TANK CARS OF PRIVATE OWNERSHIP</p> <p>PART A AGGREGATE EMPTY MILEAGE VERSUS LOADED MILEAGE (SEE NOTE 1)</p> <ol style="list-style-type: none"> Should the aggregate empty mileage accumulated by tank cars carrying any of the reported marks assigned to any one person or company during a calendar year exceed the aggregate loaded mileage during the same calendar year by more than six (6) percent, such excess mileage must be paid for by the person or company to whom the reporting marks are assigned at the rate of ninety-six (96) cents per mile, without minimum, subject to the procedures outlined in Part D (See Note 2, this item). Mileage on empty cars moving on revenue billing will not be included in the equalization account. Empty mileage accumulated on cars moving to and from repair facilities for modification under DOT mandated retrofit programs or for inspection and/or repair under FRA Emergency Orders will not be included in the equalization account. Empty mileage accumulated on cars moving under AAR Early Warning/ Maintenance Advisory letters to and from repair facilities associated with the removal of certain truck bolsters that were manufactured by the National Castings of Mexico facility in Sahagun, Mexico, will not be included in the equalization account. Except as outlined in Item 190 Series, Paragraph 2 (C), no adjustments to loaded or empty mileage will be made in the equalization account for mileage caused by error in handling of the reporting railroad or of another railroad, or for mileage accumulated on cars moving on their own wheels to and from repair facilities due to railroad damage or for mileage accumulated due to longer routes for railroad convenience, detours and Surface Transportation Board Service Orders. Rail carriers will make equalization adjustments to the owners of excess reported on-line empty mileage on cars, they lease and operate under private marks, or cars of other lessees and/or owners operating on their line for company material, weed killer and similar service. Adjustments to loaded or empty mileage will be made in the equalization account for apparent accounting errors in the total mileage reported for participating rail carriers under the following procedures. In the absence of appropriate adjustments being made by the AAR or a participating carrier for such accounting errors, a private car company or owner may request an appropriate adjustment for mileage summaries reported in error, from the involved rail carrier in the format prescribed by the AAR, provided such request is made within thirty (30) days of the forwarding of the monthly AAR "Year to Date Equalization Register", containing the alleged error, furnishing a duplicate of such request to the Assistant Vice President, Business Services, AAR. The rail carriers will have thirty (30) days from the date of such request in which to decline or make all or a portion of the requested adjustment, advising the Assistant Vice President of the handling accorded. <p>(Continued in next column)</p>	<p>ITEM 187 (Cont'd)</p> <p>EQUALIZATION OF MILEAGE ON TANK CARS OF PRIVATE OWNERSHIP</p> <p>PART A AGGREGATE EMPTY MILEAGE VERSUS LOADED MILEAGE (SEE NOTE 1)</p> <ol style="list-style-type: none"> (Cont'd) If the rail carrier fails to act upon a request for adjustments in the AAR summary totals within the specified time frame, the AAR is authorized to make the adjustment to the equalization account of the private car company or owner for the amount of mileage originally requested. Exceptions to the annual national equalization statement will be handled in accordance with the provisions of Part D (2). <p>ALL requests for adjustments to the equalization account must be presented by the private car company or owner to the involved rail carrier(s) or presented by the rail carrier(s) to the private car company or owner within three (3) years from the last day of the reporting month in question. However, such request for adjustments will not be accepted by the AAR if the involved rail carrier or car owner is no longer an operating entity, except as provided for in Part C.</p> <ol style="list-style-type: none"> Aggregate loaded and empty mileage will be computed on the basis of actual distance, as defined in Item 185-Series. Adjustments made subsequent to the deadline specified in Part D will be computed in the subsequent equalization account year. <p>PART B REPORTING OF ACTUAL LOADED AND EMPTY MILEAGE</p> <p>Each participating carrier will submit a monthly mileage report in the format prescribed by the AAR to the assignee of each reporting mark forty (40) days after the close of the movement month reporting by individual car number the actual loaded and empty miles moved as computed in accordance with Item 185-Series. In addition, total actual monthly loaded and empty mileage accumulated by all cars bearing each reporting mark will be reported to the assignee of such mark in the format prescribed by the AAR, furnishing a duplicate of this summary report to the Assistant Vice President, Business Services, AAR. Adjustments for prior months will be indicated on this monthly summary report.</p> <p>PART C CHANGE OF OWNERSHIP</p> <p>When a private tank car company or owner discontinues business or disposes of all tank car equipment, any excess empty mileage balance which has accrued to the date of such action, on the tank cars bearing the reporting marks of such company or owner, shall be subject to bill as of that date, in accordance with the provisions of Parts A and D of Item 187-Series, subject to any applicable adjustments.</p> <p>(Continued on next page)</p>

<p>ITEM 187 (Cont'd)</p> <p>EQUALIZATION OF MILEAGE ON TANK CARS OF PRIVATE OWNERSHIP</p> <p>PART D ANNUAL NATIONAL EQUALIZATION ACCOUNTING</p> <ol style="list-style-type: none"> After May 20 of each year, the Assistant Vice President, Business Services, AAR will summarize all empty and loaded mileage by reporting mark assigned to any person or company, reporting for the proceeding calendar year, by all participating carriers to this tariff. Should the aggregate empty mileage exceed the aggregate loaded mileage of all participating carriers by more than (6) percent for any such group of reporting marks, the person or company to whom the reporting marks are assigned will be billed at the rate of ♦ninety-six (96) cents per mile without minimum and must pay the AAR on behalf of each participating carrier for such excess for such empty mileage. The charges collected for this excess empty mileage will be distributed to the participating carriers by the AAR in direct proportion to such carriers portion of excess empty mileage to the total accumulated excess empty mileage. Only that mileage and any related adjustments reported to the Assistant Vice President prior to May 20 will be considered in determining and excess empty mileage, as outlined herein (See Notes 1, 2 and 3). An annual national equalization statement detailing the excess empty mileage accumulated and any applicable charges will be tendered by the Assistant Vice President to the person or company assigned the reporting mark(s) for such cars for verification no later than July 1 of the year succeeding the equalization accounting year. Exceptions to this statement must be received by the Assistant Vice President within 30 days of the date tendered, and payment for all excess empty mileage is due immediately thereafter. Any adjustments made by the participating carriers up to and including the March account applicable to the prior year(s) will be incorporated in the equalization accounts for the prior equalization accounting year. Any railroad or AAR adjustments made subsequent to the March account will be carried over to the following equalization accounting year (See Note 3). A private car company or owner failing to render complete payment for all excess empty mileage within thirty (30) days of the date its equalization statement is tendered by the AAR will be subject to a penalty of one and a half percent (1.5%) interest per month (i.e., annual rate of 18%) for each calendar month or fraction thereof on any outstanding balance due from the date of the AAR's invoice statement. If any portion of a private car company's or owner's equalization statement remains unpaid in excess of 3 months from the date initially tendered, all mileage allowances accrued by the tank cars registered in the Umler file bearing its reporting marks will be withheld by the carriers participating in this item until such time as complete payment including applicable penalty interest is made. Once complete payment is made, the participating carriers will be notified by the AAR and claims for any applicable mileage allowances withheld will be honored, less a 15% penalty charge for the carriers' administrative expense. <p>(Continued in next column)</p>	<p>ITEM 187 (Cont'd)</p> <p>EQUALIZATION OF MILEAGE ON TANK CARS OF PRIVATE OWNERSHIP</p> <p>PART D ANNUAL NATIONAL EQUALIZATION ACCOUNTING</p> <p>EXPLANATION OF NOTES</p> <ol style="list-style-type: none"> The ♦ninety-six (96) cents per mile charges for excess empty mileage under the provisions of this item is subject to revision September 1 of each year under Ex Parte No. 328 agreed annual update procedures, and will be retroactively applied to cover the entire calendar year involved. Close out dates specified in Part D may be extended by the AAR for a maximum of 60 days for special national accounting problem conditions, affecting substantially all carriers and all owners. Invoices that have been issued which, after investigation, are determined to have been erroneous due to rail carriers or AAR accounting and/or system errors may be cancelled by the Assistant Vice President. <p>ITEM 190</p> <p>HANDLING OF EMPTY TANK CARS (SEE NOTE 2)</p> <ol style="list-style-type: none"> When a tank car is released from load, the owner or lessee must issue instructions for the disposition of the empty car to the agent at point of unloading either direct or through consignee or via EDI. Empty instructions may also be included with the original loaded shipping instructions if transmitted via EDI. If the owner or lessee fails to have instructions in the hands of the railroad agent having jurisdiction at point of unloading prior to the time the car is released from load to forward the car or written instructions to hold it, the agent is authorized to forward the empty car to the origin point of the last load via reverse of the loaded route. No tank car which last contained hazardous material may be moved without having shipping instructions furnished as per Title 49 Code of Federal Regulations. Empty tank cars will be handled as follows: <ol style="list-style-type: none"> Except as otherwise provided in this tariff, cars covered by this section will be moved empty without charge between stations or junction points upon receipt of instructions from the car owner or lessee confirmed in writing. Such instructions must include the specific facility to which such empty car is consigned or the name and address of the person or company which controls the car. No allowance will be made for mileage of such cars during empty movement. A new car, a car that is restenciled with private reporting marks or a newly acquired car moving prior to its first loaded move in commercial service and a newly acquired car moving prior to its first loaded move in commercial service and a car moving for sale or scrap will be moved upon surrender of a bill of lading and will be subject to applicable rates.(see Note 1). <p>(Continued on next page)</p>

<p>ITEM 190 (Cont'd)</p> <p>HANDLING OF EMPTY TANK CARS (SEE NOTE 2)</p> <p>2. Empty tank cars will be handled as follows: (Cont'd)</p> <p>C. If the owner or lessee or party issued instructions to forward the empty tank car to the origin point of the last load by specific routing different than the reverse routing of the loaded movement, the total miles of such return movement will be billed at the excess empty mileage rate specified in Item 187-Series without minimum and such empty mileage so billed will be excluded from the equalization account of the owner. This billing will be made to, and collectable from, the person so requesting such variance in the return routing. If the carriers depart from the destinations, junctions or carriers of the reverse route of the load, any resulting excess empty miles will be excluded from the car owner's equalization account by erring carrier.</p> <p>EXPLANATION OF NOTES</p> <p>1. A car loaded with railroad company material moving on non-revenue billing will be considered as having been loaded in commercial service on which the railroads derived line-haul revenue.</p> <p>2. The provisions of this item apply except as otherwise provided in Item 192-Series of this tariff.</p>	<p>ITEM 192 (Cont'd)</p> <p>HANDLING AND HOLDING OF EMPTY TANK CARS BY RAILROADS ON RAILROAD TRACKS (SEE NOTE 1)</p> <p>4. The time calculation will start the first 7 A.M. subsequent to carrier notification to the consignee that the empty private car is ready for placement and the time calculation will stop when the carrier places or forwards the car pursuant to instructions or should have placed or forwarded the car pursuant to instructions.</p> <p>5. After expiration of free time as provided in Paragraph 4, charges will be as follows: (See Note 2)</p> <p>A. Supplementary handling charge of ▲\$106.00 per car.</p> <p>B. Holding charge of \$1 per car per calendar day or fraction thereof including Saturdays, Sundays and holidays while held by carrier on non-leased tracks awaiting disposition.</p> <p>6. In the event the consignee orders the car to tracks owned or leased by the consignee in the vicinity of the facility for cleaning, lining, relining, maintenance, modification or repair within the forty-eight hour period described under Paragraph 4, this item, there will be no supplementary handling charge for the movement; however, such cars will be subject to the supplementary handling charge of ▲\$106.00 per car (See Note 2) at such time that the empty tank car is subsequently ordered and moved onto the facility for cleaning, lining, relining, maintenance, modification or repair or ordered moved from that facility to the tracks or leased by the consignee in the vicinity of the facility.</p> <p>7. Applicable billing will be monthly to the facility involved.</p> <p>EXPLANATION OF NOTES</p> <p>1. The rules and charges in this item do not in any way supersede or duplicate existing, or new written contractual operating, side track, track lease, property lease, etc., agreements or tariffs that contain empty private tank car handling and holding provisions as part of the overall agreement.</p> <p>2. Per ExParte No. 328, the supplemental handling charge will be revised annually at the same time as the tank car mileage allowance update, utilizing the same method as that prescribed for updating the excess mileage equalization charge.</p>
<p>ITEM 192</p> <p>HANDLING AND HOLDING OF EMPTY TANK CARS BY RAILROADS ON RAILROAD TRACKS (SEE NOTE 1)</p> <p>1. <p>ITEM 195 (Cont'd)</p> <p align="center">MILEAGE RATE ALLOWANCE ON TANK "T" CAR (SEE ITEM 196 FOR EXPLANATION OF DESIGNATING SYMBOL) (SEE NOTE 1) (Cont'd)</p>	
<p align="center">EXPLANATION OF NOTES</p> <ol style="list-style-type: none"> Designating symbols (mechanical designation) will be assigned to car owner or lessee by the Executive Director, Rules and Standards, Technical Services, Association of American Railroads, upon written application. For mileage allowance purposes, the service year of a car is calculated based upon year of construction of underframe. A car's first service year is the year built. Its second service year begins on January 1 of the year following the year built, with succeeding service years starting on January 1 of each following year. If the tank's service year exceeds 30, the car's service year is considered to be in excess of 30 regardless of year of construction of underframe. For those cars constructed without an underframe, the car's service year is calculated based upon year of construction of tank. Service year is determined by subtracting the year of construction (built/rebuilt) from the current calendar year, plus 1, e.g., (2000 - 1970) + 1 = 31, or Service Years 31 and over allowance bracket. <p align="center">(Continued on next page)</p>

<p>ITEM 195 (Cont'd)</p> <p align="center">MILEAGE RATE ALLOWANCE ON TANK "T" CAR (SEE ITEM 196 FOR EXPLANATION OF DESIGNATING SYMBOL) (SEE NOTE 1)</p> <p align="center">EXPLANATION OF NOTES</p> <p>3. Applies as follows:</p> <p>A. For cars built between January 1, 1968 and July 1, 1991, assignment of owned or leased cars to value groups will be determined by the original cost as represented to the original buyer by the manufacturer's invoice price at the time of original installation into service. In the case of a manufacturer-lessor, the fair market value or the value which was certified, or would have been certified, for investment tax credit purposes shall be substituted therefore.</p> <p>B. Assignment to value groups of cars placed into service after July 1, 1991 will be determined by the original cost of the car to the original buyer as stated in the manufacturer's invoice. In only two circumstances, owners may certify as alternative "true value" in lieu of invoice price:</p> <p>(a) manufacturers who retain cars for their own leasing service and (b) purchasers who can demonstrate that they contributed physical assets of significant value that were used by the manufacturer in fabricating a car, resulting in a reduction of the invoice price by more than \$1,000 per car below the price that otherwise would have been charged. For manufacturers "true value" is the price for which a car or group of cars manufactured as a group would have been sold in an arm's length transaction. For purchasers who have made a qualifying contribution to fabrication, "true value" is the invoice price plus the depreciated value of the contributed assets distributed over the cars for which the assets were used, subject to the same limitations on "true value" which would apply to a manufacturer. "True value" shall not exceed the average price of similar cars registered in Umler at invoice price within the most recent 12 months for which registration information is available in Umler, adjusted for changes in the market values of new tank cars as reflected in average car prices. If the AAR determines by audit that a certified "true value" exceeds this value limit by an amount that causes a car to be placed in a higher allowance value bracket, the value of the car will be reduced to the appropriate value bracket. In addition, if the AAR determines by audit that a certified, "true value" exceeds this value limit by an amount that causes a car to be placed in allowance value bracket more than one bracket above the otherwise applicable bracket, excess allowances paid as a result of the over valuation shall be reimbursed to the paying railroads.</p> <p>Those owners who certify a "true value" in lieu of invoice price during the calendar year must provide to the AAR an officer's certificate at the end of the year stating that, based on all information available to the owner, the owner has complied with the terms of this item. Car owners must supply for entry into Umler all information required for tank cars in the Umler Data Specification Manual. Notwithstanding any other provision of this tariff item, "true value" will be subject to audit directly by the AAR.</p> <p align="center">(Continued in next column)</p>	<p>ITEM 195 (Cont'd)</p> <p align="center">MILEAGE RATE ALLOWANCE ON TANK "T" CAR (SEE ITEM 196 FOR EXPLANATION OF DESIGNATING SYMBOL) (SEE NOTE 1)</p> <p align="center">EXPLANATION OF NOTES</p> <p>3. Failure of the car owner to furnish the required car valuation data to the AAR Umler file, to arrange for the requested audit, or to correct errors determined as a result of such audit, will result in such car(s) being assigned to the lowest applicable mileage allowance rate group. <p align="center">(Continued on next page)</p>

Applies as follows:</p> <p>A. Into service transportation costs are those freight charges associated with the movement of a car that is ready for its first load to the locations of the car's original installation into service. Other transportation charges incurred during construction (e.g., to a facility which installs the original lining, etc) may be included in ledger value provided that the cost is capitalized.</p> <p>B. A capital expenditure is an expenditure intended to benefit future periods in contrast to revenue expenditure/current expense which benefits a current period. It is an addition to a capital asset and is initially reflected on the balance sheet. A capital expenditure normally is subject to depreciation in future years.</p> <p>C. Applies as follows:</p> <ol style="list-style-type: none"> 1. An addition or betterment has the effect of: <ol style="list-style-type: none"> a. Extending the useful life of a car beyond the life projected when the car was entered into service; or b. Increasing a car's normal use beyond that which was in effect when the car was entered into service; or c. Lowering the operating costs beyond that which was in effect at the time the car was entered into service; or d. Otherwise adding to the worth of the benefits a car can yield beyond that in effect when the car was entered into service (e.g., enhance safety, etc). e. Any repair that maintains a car in its customary state of operating efficiency is NOT an addition or betterment. 2. An addition is the installation of a new component of a car (not a replacement) which meets the above tests. The value registered in Umler shall be the cost of the component added, including labor. 3. A betterment is the replacement of a component of the car with a superior component. The value registered in Umler for a betterment should not exceed the cost of the superior component, including labor minus (1) the original value of the component that was replaced (i.e., retired) and (2) the cost (i.e., expense) incurred in removing the old component. 4. When a unit of property is removed from a car (i.e., partial retirement), the ledger value registered in Umler shall be reduced by the original value of the unit removed. 5. <p>ITEM 195 (Cont'd)</p> <p>MILEAGE RATE ALLOWANCE ON TANK "T" CAR (SEE ITEM 196 FOR EXPLANATION OF DESIGNATING SYMBOL) (SEE NOTE 1)</p> <p>EXPLANATION OF NOTES</p> <p>6. Applies as follows:</p> <p>A. When an owner: (1) makes a valuation correction to the Umler file; or (2) changes the mechanical designation of cars registered in the Umler file; and such changes result in an increase or decrease in the mileage allowance rates, the Assistant Vice President, Business Services, AAR, will be so notified and the increase or decrease will be applied retroactively. Once cars have been reported to the Umler file, any of the foregoing corrections or changes that result in a retroactive increase or decrease in the mileage allowance rates will be identified by the Assistant Vice President. The car owner is required to furnish the Assistant Vice President documented proof of the basis of the correction or change and advise as to any applicable mileage allowance adjustments which are required.</p> <p>B. Retroactive Mileage Allowance Decrease: Within five (5) months from the date of a change to the Umler file resulting in a retroactive mileage allowance rate decrease, the owner will notify all using carriers of such decrease with either supporting details or a summary of the over-collections, with a copy to the Assistant Vice President. After receiving such notification, the using carrier shall deduct such amount(s), in the next open mileage reports to the car owner, plus fifteen (15) percent to reimburse the handling road for audit and associated administrative expenses. If the owner fails to send notification to the users within five (5) months, the Assistant Vice President shall notify carriers of the car initial (s) and number(s) involved and the user(s) shall make an adjustment, as described above.</p> <p>C. Retroactive Mileage Allowance Increase: Within five (5) months from the date of a change to the Umler file resulting in a retroactive mileage allowance rate increase, the owner will notify all using carriers of such increase with either supporting details or a summary of the under-collections, with a copy to the Assistant Vice President. After receiving such notification, the using carriers shall add such amount(s) in their next open mileage reports to the car owner, less fifteen (15) percent to reimburse the handling roads for audit and associated administrative expense. SECTION 2 APPLIES ON CARS OTHER THAN TANK CARS	SECTION 2 EXCEPTION TO APPLICATION AND RULES APPLIES ON CARS OTHER THAN TANK CARS
ITEM 400 APPLICATION - APPLIES ON CARS OTHER THAN TANK CARS 1. The term "Cars of Private Ownership", when used in this tariff, is defined as cars bearing other than Railroad Reporting marks that are owned by individuals, firms, corporations, or car companies, including cars owned and/or operated by railroads controlled car lines. 2. Except as otherwise provided herein, these rules govern the handling of cars other than tank cars, including the payment of mileage allowances when used by railroads party to this tariff individually or jointly where specifically provided herein, for transportation over their lines, as follows: A. Between points in the United States (interstate and intrastate) including movements where part of the through route is through Canada. B. Internationally, i.e., between points in the United States and points in Canada. C. Between points in Canada in connection with the Norfolk Southern Railway Company. D. For that portion of the haul in the United States in connection with movements between points in Canada where part of the through route is through the United States.	ITEM 405 GENERAL EXCEPTION 1. The rules and mileage allowances published herein will not apply to: A. Cars that are not properly registered in the AAR's Umler file with assigned reporting marks and mechanical designations. B. Railroad controlled cars bearing private reporting marks equipped with bi- or tri-level racks moving under direction or authority of the rack owner en route to or from non-railroad facilities for the repair or modification of such racks. 2. Mileage allowances will not apply to cars handled under the provisions of Item 615, Parts A. 2. B. 2. B. and C. 2. D. and E.
	ITEM 412 BALTIMORE AND OHIO CHICAGO TERMINAL RAILROAD COMPANY (SEE EXCEPTION 1) Provisions of this tariff for the movement of empty cars without charge to or from shop facilities for cleaning, lining, relining, maintenance or repair, will not apply to such cars moving from or to shop facilities served by BOCT, to the extent charges are published in Tariff BOCT 8100-Series. EXCEPTION 1. These provisions do not apply to tank cars.
	ITEM 413 (Provisions formerly shown herein and not brought forward are hereby canceled.)
	ITEM 414 ANN ARBOR RAILROAD COMPANY (AA) The AA will pay an allowance of one and one-half (1.5) cents per mile for gondola cars with mechanical designation "GBS" marked TPPX 30101-30152 and TPPX 40101-40150.

As a condition for the assignment and retention of reporting marks, applicants must be subscribers to the AAR Mechanical Interchange Agreement and all cars bearing such reporting marks must be properly registered in the Umler file. 2. Application for use of cars bearing such reporting marks shall state the name of the owner (assignee of reporting marks) and lessee, if leased, and the station or stations and industry or industries at which loads are intended to originate, and the name of the first line haul carrier or carriers. The application will be transmitted by the applicant to the originating line haul carrier(s) for approval. Application for approval for shipper provided cars cannot be denied by the carriers except for reasons of safety, mechanical factors or inadequate storage space. 3. After reporting marks are approved, the cars may be used by the owner or lessee for the origination of traffic only at the station or stations on the carrier or carriers that granted application approval. As to use of the cars for the origination of traffic at some other station or stations, or some other carrier or carriers, application must be made by the owner or lessee to the originating carrier. 4. After reporting marks have been assigned, they may be used on any cars that meet the requirements of the AAR Mechanical Interchange Rules and which are properly registered in the Umler file. 5. The number of cars of any type shall not be increased nor shall destroyed cars be replaced without specific authority granted by the originating line haul carrier(s). 6. Mileage allowance must be reported to the car owner (person or company at a single address, to whom the reporting marks are assigned) within one (1) month and ten (10) days from the last day of the month in which it is earned including payment for cars on hand at the end of that month. 7. Mileage allowance for the use of cars will be paid only to the person or company, at a single address, to whom the reporting marks are assigned provided cars are properly equipped and marked with the assigned reporting marks and car number and provided further: <ol style="list-style-type: none"> A. Deductions by Railroads to Private Car Owners:</p> <p>A. Mileage allowed in error, by a railroad, including but not limited to, mileage allowed at incorrect rates for any reason, may be deducted from the car owner's account within twenty-four (24) months from the last day of the month for which the mileage was reported as earned, but not later. A railroad may render an invoice for mileage allowed in error at any time within twenty-four (24) months from the last day of the month for which the mileage was reported as earned. Except as provided for in paragraph 3, an owner-lessor of a private car must remit within eight (8) months after the invoice is presented the entire amount of any invoice issued to it.</p> <p>B. Deductions for amounts of \$25.00 or less shall not be taken after the expiration of two (2) months and ten (10) days from the last day of the month the mileage was earned.</p> <p>2. Claims Issued by Private Car Owners to Railroads:</p> <p>A. A private car owner must, within twenty-four (24) months from the last day of the month the completed cycle was reported, present any claim for mileage allowance discrepancies, including incorrect rates to the applicable rail carrier in the prescribed AAR format, as published AAR Circular No. OT-3 Series at www.Railinc.com, Reference Files. Claims not presented in required format will not be processed. The railroad receiving the claim must within four (4) months from the date on which the claim was presented allow it in whole or in part, or decline it. The private car owner may reissue its claim, if applicable, within four (4) months from the last day of the four (4) month period allowed the railroad which handled the claim prior to reissuance. The railroad receiving the reissued claim must within four (4) months from the date on which the reissued claim was presented allow it in whole or in part or decline it. If the railroad fails to handle the original or reissued claim within the prescribed time limits, it will constitute a valid claim as last presented and must be honored by the railroad to which presented. Claims for amounts of \$25.00 per car per cycle or less shall not be issued. The \$25.00 limit is not applicable where no miles were reported for the railroad cycle.</p> <p>3. Claims by Owners-Lessors:</p> <p>A. If a railroad takes a deduction against or issues an invoice to an owner-lessor for mileage allowed in error, including, but not limited to, mileage allowed at incorrect rates for any reason, but the erroneous allowance payment is not recoverable by the owner-lessor as defined below, the owner-lessor may present a claim for the recovery of the amounts deducted by the railroad or the cancellation of an unpaid invoice within two (2) years of receiving notice of the railroad's deduction or invoice.</p> <p>(Continued on next page)</p>

EXPLANATION OF NOTES

1. Age of car is calculated upon year of construction. Age is determined by subtracting the year of construction (built/rebuilt) from the current calendar year plus 1, (e.g., <2000-1988> + 1 = 13, or 1 through 30 age bracket).
2. (1) Assignment of owned or leased cars to value groups will be determined by the original buyer by the manufacturer's invoice price at the time of original installation into service. In the case of a manufacturer-lessor, the fair market value or the value which was certified, or would have been certified, for investment tax credit purposes shall be substituted therefore. In either of the above cases, initial into service transportation costs, capitalized original lining costs, capitalized additions and capitalized betterments shall be added to the value, if applicable, and if not already included in the original cost or the original fair market value figures. Values other than invoice price shall be identified in accordance with the current AAR Umler Data Specification Manual at www.Railinc.com, Products & Services, at the time cars are submitted to the Assistant Vice President, Business Services, AAR, for the registration in the Umler file (see Note 5).
- (2) The rebuilt year and rebuilt valuation of a private car will be utilized for the purpose of computing applicable mileage allowances subject to the following conditions:
 - A. The car must be rebuilt in accordance with the current requirements of Rule 88, Section C of the Office Manual, and Sections A and B of the Field Manual, AAR Interchange Rules. Application for official rebuilt status must be filed with the Executive Director, Rules and Standards, AAR Technical Services and written formal approval received prior to registering such car in the Umler file with rebuilt age and valuation data.
 - B. Assignment of owned or leased rebuilt cars to value groups will be determined as outlined in paragraph (1) herein, except that the maximum valuation of a rebuilt car shall not exceed the lesser of: 75% of the original cost of a comparable new car; or 75% of the calculated replacement cost of the rebuilt car prior to rebuilding, as computed per AAR Interchange Rule 107.

ITEM 621 (Cont'd)**EXPLANATION OF NOTES**

3. All car ages and values submitted are subject to verification by the AAR, and audit by the AAR or the owner's independent public accountant upon reasonable request by the AAR. If the car owner elects to have the audit performed by its independent public accountant, such audit must be performed in a timely fashion in the manner prescribed by the AAR, will be performed at the car owner's expense and must be duly certified by the car owner's auditor as representing the true value of all cars included in such audit. Depreciation will be applied annually from the original date of construction or date rebuilt. Failure of the car owner to furnish the required car valuation data to the AAR Umler file, to arrange for the requested audit, or to correct errors determined as a result of such audit, will result in such car(s) being assigned to the lowest applicable mileage allowance rate group.
4. For cars built or rebuilt subsequent to December 31, 1977, all values reported to the AAR Umler file must be stated in equivalent U.S. dollars based upon the applicable exchange rate at the time such cars were built or rebuilt. Subsequent capitalized additions and betterments reported to Umler must also be stated in equivalent U.S. dollars at the time such improvements were made.
5. (1) Into-service transportation costs are those freight charges associated with the movement of a car that is ready for its first load to the location of the car's original installation into service. Other transportation charges incurred during construction (e.g., to a facility which installs the original lining, etc.) may be included in the ledger value provided that the cost is capitalized.
- (2) A capital expenditure is an expenditure intended to benefit future periods in contrast to a revenue expenditure/current expense which benefits a current period. It is an addition to a capital asset and is initially reflected on the balance sheet. A capital expenditure normally is subject to depreciation in future years.
- (3) A. An addition or betterment has the effect of:
 1. extending the useful life of a car beyond the life projected when the car was entered into service; or
 2. increasing a car's normal use beyond that which was in effect when the car was entered into service; or
 3. lowering the operating costs beyond that which was in effect at the time the car was entered into service (e.g., enhance safety, etc.).

Any repair that maintains a car in its customary state of operating efficiency is NOT an addition or betterment.
- B. An addition is the installation of a new component of a car (not a replacement) which meets the above tests. The value registered in Umler shall be the cost of the component added, including labor.

<p>ITEM 621 (Cont'd)</p> <p align="center">EXPLANATION OF NOTES</p> <p>(3) C. A betterment is the replacement of a component of a car with a superior component. The value registered in Umler for a betterment should not exceed the cost of the superior component, including labor minus (1) the original value of the component that was replaced (i.e., retired) and (2) the cost (i.e., expense) incurred in removing the old component.</p> <p>D. When a unit of property is removed from a car (i.e., partial retirement), the ledger value registered in Umler shall be reduced by the original value of the unit removed.</p> <p>E. Any cost recovered under AAR Defect Car Billing, if applicable must be deducted from the cost of an addition of betterment.</p> <p>6. (1) When an owner: (1) makes a valuation correction to the Umler file; or (2) changes the mechanical designation of cars registered in the Umler file; and such changes result in an increase or decrease in the mileage allowance rates, the Assistant Vice President, Business Services, AAR, will be so notified and the increase or decrease will be applied retroactively. Once cars have been reported the Umler file, any of the foregoing corrections or changes that result in a retroactive increase or decrease in the mileage allowance rates will be identified by the Assistant Vice President. The car owner is required to furnish the Assistant Vice President documented proof of the basis of the correction or change and advise as to any applicable mileage allowance adjustments which are required.</p> <p>(2) Retroactive Mileage Allowance Decrease: Within five (5) months from the date of a change to the Umler file resulting in a retroactive mileage allowance rate decrease, the owner will notify all using carriers of such decrease with either supporting details or a summary of the over-collections, with a copy to the Assistant Vice President. After receiving such notification, the using carrier shall deduct such amount(s), in the next open mileage reports to the car owner, plus fifteen (15) percent to reimburse the handling road for audit and associated administrative expenses. If the owner fails to send notification to the users within five months, the Assistant Vice President shall notify carriers of the car initial(s) and number(s) involved and the user(s) shall make an adjustment, as described above.</p> <p>(3) Retroactive Mileage Allowance Increase: Within five (5) months from the date of a change to the Umler file resulting in a retroactive mileage allowance rate increase, the owner will notify all using carriers of such increase with either supporting details or a summary of the under-collections, with a copy to the Assistant Vice President. After receiving such notification, the using carriers shall add such amount(s) in their next open mileage reports to the car owner, less fifteen (15) percent to reimburse the handling roads for audit and associated administrative expense. PART 2 EQUALIZATION OF DISTANCE ON TANK CARS OF PRIVATE OWNERSHIP	PART 3 DISTANCE ALLOWANCE RATES ON TANK CARS OF PRIVATE OWNERSHIP
ITEM 1305 AGGREGATE EMPTY DISTANCE VERSUS AGGREGATE LOADED DISTANCE A. On CSXT, should the aggregate empty miles operated by the cars of any of the reporting marks assigned to any one person or company exceed the aggregate loaded miles operated by the cars of those reporting marks, at the end of a calendar year, by more than five percent (5%), such excess empty miles must be paid to CSXT by the person or company to whom those reporting marks are assigned at a rate of 53.8 cents per mile, without minimum, upon receipt of advice from CSXT at the end of the period in question that such an amount is due and payable. B. Cars not completely unloaded, and where the remainder of the lading is returned from destination to the original shipping points, will not be regarded as loaded cars for purposes of distance equalization.	ITEM 1400 APPLICATION The regulations authorized in Part 3 will govern the payment of distance rate allowance on tank cars of private ownership for loaded miles only, without exception.
ITEM 1310 CARS OF DIFFERENT OWNERS TO BE KEPT IN SEPARATE ACCOUNTS CSXT will maintain separate and distinct equalization accounts by car owner for private tank cars.	ITEM 1405 MILEAGE ALLOWANCE RATES Mileage allowance for use of tank cars of private ownership will be paid only to the person or company to whom the reporting marks are assigned, not to the lessee, in accordance with the following: <u>International Traffic</u> (a) A mileage allowance rate of 59.4 cents per loaded mile will be paid on tank cars of private ownership provided such cars fulfill requirements of Item 1220 of this tariff and are registered in the Umler file, as specified in Item 195 Series, Mileage Tariff RIC 6007 Series, under original fair market value of \$18,001 and over. (b) A distance allowance rate of 13.9 cents per loaded mile will be paid on tank cars of private ownership that do not meet the provisions of paragraph 1. (a). <u>Canadian Traffic</u> (a) A distance allowance rate of 59.4 cents per loaded mile (EXCEPTIONS 1 and 2 below) will be paid on Canadian built cars of private ownership, also U.S. built cars of private ownership, assigned to service solely within Canada and sales tax and duty have been paid, provided such cars fulfill requirements of Item 1220 of this tariff and are registered in the Umler file, as specified in Item 1195 Series, Mileage Tariff RIC 6007 Series, under original fair market value of \$18,001 and over. (b) When US built cars of private ownership fulfill the requirements of Item 1220 of this tariff, are used for a temporary period in domestic service in Canada, a distance allowance of 59.4 cents per loaded mile will be paid on cars registered in the Umler file, as specified in Item 195 Series, Mileage Tariff RIC 6007 Series, under fair market value of \$18,001 and over. (c) A distance allowance rate of 13.9 cents per loaded mile will be paid on tank cars of private ownership provided such cars fulfill requirements of Item 1220 of this tariff and do not meet the provisions of paragraph 2 (a) and/or 2(b).
ITEM 1315 ERROR IN REPORTING Loaded or empty mileage caused by error of the reporting railway or of another railway, will not be credited or charged in the equalization account of the reporting railway, and the loaded or empty distance which would have been made by the car had there been no error, shall be credited to, or charged in the equalization accounts of the railway or railways via which the car should have moved, provided claims for such adjustment are made within six months from the last day of the month in which the error occurred.	EXCEPTIONS 1. On Rapeseed Oil-Canola, moving at rates published in Tariff CP 4611-Series, a distance allowance rate of 55.7 cents per loaded mile be paid on tank cars having a capacity exceeding 10,001 imperial gallons, and distance allowance rate of 11.3 cents (Note 12, Item 6000) per loaded mile will be paid on tank cars having a capacity not exceeding 10,000 imperial gallons. 2. On Rapeseed Oil-Canola, linseed oil, and sunflower seed oil, moving at rates published in Tariff CP 4310-Series, a distance allowance of 56.5 cents per loaded mile will be paid on tank cars having a capacity exceeding 10,001 imperial gallons. A distance allowance of 11.3 cents per loaded mile will be paid on tank cars having a capacity not exceeding 10,000 imperial gallons.
ITEM 1320 CHANGE OF OWNERSHIP When a private tank car company or owner discontinues business or disposes of tank car equipment, any excess empty distance balance which has accrued to date of such action, on the tank cars bearing the reporting marks of such company of owner, shall be subject to bill as of that date, unless the new owner who acquires the tank car equipment agrees to assume all of the obligations of the former owner under this arrangement, in which event the loaded or empty distance balance existing at the time of such acquirement shall be transferred to the equalization account of the new owner.

ITEM 1500 APPLICATION <p>The regulations authorized in Part 4 will govern equalization of distance on all miles except as noted, on covered hopper cars ("LO") of private ownership. This tariff will not apply on overhead (Interstate or Intrastate) traffic where portion of the rail haul is in Canada.</p>	ITEM 1600 APPLICATION <p>The regulations authorized in Part 5 will govern the payment of distance rate allowance on covered hopper cars ("LO") of private ownership for loaded miles only without exception.</p>																														
ITEM 1510 AGGREGATE EMPTY DISTANCE VERSUS AGGREGATE LOADED DISTANCE <p>A. On CSXT, should the aggregate empty miles operated by the cars of any of the reporting marks, assigned to one person or company, exceed the aggregate loaded miles operated by the cars of those reporting marks, during the period commencing January 1 to December 31 each year, by more than 5%, such excess empty miles must be paid to CSXT by the person or company to whom the reporting marks are assigned at a rate of 34 cents per mile, without minimum, upon receipt of advice from that railway at the end of the period in question that such an amount is due and payable.</p> <p>B. Cars not completely unloaded, and where the remainder of the lading is returned from destination to the original shipping point, will not be regarded as loaded cars for purpose of distance equalization.</p>	ITEM 1605 KIND OF CAR AND DISTANCE RATE ALLOWANCE <table> <thead> <tr> <th data-bbox="854 663 997 688"><u>TYPE OF CAR</u></th><th data-bbox="1268 596 1354 663"><u>Cents per loaded mile</u></th></tr> </thead> <tbody> <tr> <td data-bbox="854 722 1143 747">PART 1 International Traffic: -</td><td></td></tr> <tr> <td data-bbox="854 772 1078 798">Covered Hopper ("LO")</td><td></td></tr> <tr> <td data-bbox="867 802 1224 848">Cars 30 years of age and over (See Note 1).....</td><td data-bbox="1289 823 1333 848">11.6</td></tr> <tr> <td data-bbox="867 852 1224 898">Cars under 30 years of age and over (See Item 1610)</td><td></td></tr> <tr> <td data-bbox="867 903 1224 949">Depreciated Original Fair Market Value:</td><td></td></tr> <tr> <td data-bbox="883 953 1224 978">Nil to \$4,999.....</td><td data-bbox="1289 953 1333 978">15.3</td></tr> <tr> <td data-bbox="883 1003 1224 1029">\$5,000 to \$9,999.....</td><td data-bbox="1289 1003 1333 1029">17.2</td></tr> <tr> <td data-bbox="883 1054 1224 1079">\$10,000 to \$14,999.....</td><td data-bbox="1289 1054 1333 1079">20.0</td></tr> <tr> <td data-bbox="883 1104 1224 1129">\$15,000 to \$19,999.....</td><td data-bbox="1289 1104 1333 1129">22.1</td></tr> <tr> <td data-bbox="883 1155 1224 1180">\$20,000 and over.....</td><td data-bbox="1289 1155 1333 1180">25.2</td></tr> <tr> <td data-bbox="854 1205 1094 1230">PART 2 Domestic Traffic:</td><td></td></tr> <tr> <td data-bbox="854 1234 1224 1260">Covered Hoppers ("LO").....</td><td data-bbox="1289 1234 1333 1260">18.9</td></tr> <tr> <td data-bbox="854 1285 932 1310">PART 3:</td><td></td></tr> <tr> <td data-bbox="854 1314 1224 1339">Covered Hoppers ("LO").....</td><td data-bbox="1289 1314 1333 1339">30.3</td></tr> </tbody> </table>	<u>TYPE OF CAR</u>	<u>Cents per loaded mile</u>	PART 1 International Traffic: -		Covered Hopper ("LO")		Cars 30 years of age and over (See Note 1).....	11.6	Cars under 30 years of age and over (See Item 1610)		Depreciated Original Fair Market Value:		Nil to \$4,999.....	15.3	\$5,000 to \$9,999.....	17.2	\$10,000 to \$14,999.....	20.0	\$15,000 to \$19,999.....	22.1	\$20,000 and over.....	25.2	PART 2 Domestic Traffic:		Covered Hoppers ("LO").....	18.9	PART 3:		Covered Hoppers ("LO").....	30.3

ITEM 1610 ASSIGNMENT OF OWNED OR LEASED CARS TO VALUE GROUPS Assignment of owned or leased cars to value groups will be determined by the original cost as represented to the original buyer by the manufacturer's invoice price at the time of original installation into service. In the case of a manufacturer-lessor, the fair market value or the value which was certified, or would have been certified, for investment tax credit purposes shall be substituted therefor. In either of the above cases, initial into-service transportation costs capitalized original lining costs, capitalized additions and capitalized betterments shall be added to the value, if applicable, and if not already included in the original cost or original fair market value figures. Values other than invoice price shall be identified in accordance with the current AAR Umler format at the time cars are submitted to the Assistant Vice President, Business Services Division, AAR, for the registration in the Umler file. All car ages and values submitted are subject to verification by the AAR, and audit by the AAR or the owner's independent public account upon reasonable request by the AAR. If the car owner elects to have the audit performed by its independent public accountant: such audit must be performed in a timely fashion in the manner prescribed by the AAR, will be performed at the car owner's expense, and must be duly certified by the car owner's auditor as representing the true values of all cars included in such audit. Depreciation will be applied annually from the original date of construction. Failure of the car owner to furnish the required car valuation date to the AAR Umler file, to arrange for the requested audit, or to correct errors determined as a result of such audit, will result in such car(s) being assigned to the lowest applicable mileage allowance rate group.		ITEM 1700 APPLICATION The regulations authorized in Part 6 will govern the payment of distance rate allowance on cars of private ownership (other than tank cars and covered hopper cars ("LO")).
