

Railinc’s Umler system provides a way for users to query equipment transactions (e.g., inspections, nullifications, equipment record updates). Anyone with “Umler Access for Query” permissions may perform queries. To download query results as CSV (Excel) files, the user must also have “Umler Advanced Query Access” permissions. See **Additional Resources** below for more information. Use this procedure to query transaction logs for one or more pieces of equipment:

1. Sign in to Launch Pad and navigate to **Umler**.
2. From the Umler menu bar, select **Query > Transaction Log**.
3. Tips for searching Transaction Logs:

- **Output To Browser** limits your results to 1000 rows. Browser Summary and Detail options determine how many data elements appear in the results.
- **Output To CSV** has no row limit, but you will incur a charge per record.
- One or more of these fields are required: **Starting/Ending Dates**, **Search All Dates** checkbox, one or more **Equipment ID(s)** or **Equipment Group**.

*At least one input is required:

Starting Date/Time : 02/09/2016 12:01 AM

Ending Date/Time : 02/09/2017 11:59 AM

Search All Dates :

Equipment ID(s): RAIL1-599

Company-Specific Equipment Group(s):

- To query a lengthy period of dates, it is faster to select **Search All Dates** instead of searching a date range.
- Enter one or more **Equipment ID(s)** as specific values separated by spaces or commas, or enter a range of values separated by a hyphen or a combination of both space/comma-separated values and ranges (e.g., RAIL401, RAIL404, RAIL500-RAIL599).
- Selecting additional criteria narrows search results.
- **Count** returns the number of results without actually displaying or downloading them.
- **Search** runs the query and displays the results based on your **Output To** selection.

4. On the Transaction Search Log Results screen, the Company is always visible and the User ID is visible if the transaction was submitted by your company. Click a transaction’s **ID** link for details.

Transaction Log Search Results

Search Criteria Search Results

14 matches found. 14 available for display. 14 matches displayed on this page.
The following transactions matched the specified search criteria.

ID	Time Stamp	Equipment ID	EG	ETC	MD	Pool ID	Equip Owner	Lessee	Type	State	Company	User
126089598	02/11/2016 08:46 AM	RAIL 367	VFLT	V971	FA		RAIL		ABT	Normal	RAIL	tdldr01
126427547	02/21/2016 10:20 AM	RAIL 303	BOXC				RAIL		ABT	Normal	RAIL	SYSTGENR
126433288	02/21/2016 02:33 PM	RAIL 231	BOXC	A332	XL		RAIL		ABT	Normal	RAIL	BSRXS01

5. On the Transaction Details screen, review the complete system information about the transaction, including the Element ID, Name, Transaction Element Value and Previous Element Value if present. For more information about the **Nullify** button if one is present, refer to the [Nullifying Inspections Quick Guide](#). Click **Previous** and **Next** to navigate through transactions in chronological order. Click **Done** to return to the Search Results page.
6. To further narrow search results, select the **Search Criteria** tab. Then return to step 3 to add more criteria.
